Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves an emergency safety zone lasting less than one week that will prohibit entry and transiting between MM 40 and MM 45 on the Upper Mississippi River during lightering operations of a grounded barge. It is categorically excluded from further review under paragraph L60(c) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 01. Because this safety zone is established in response to an emergency situation and is less than one week in duration, a Record of Environmental Consideration (REC) is not required. Should this emergency situation require a safety zone lasting longer than one week, a REC will be made available as indicated under ADDRESSES.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures,

Part 165—Regulated Navigation Areas and Limited Access Areas

1. The authority citation for part 165 continues to read as follows:

2. Add § 165.T08–0053 to read as follows:

§ 165.T08–0053 Safety Zone; Upper Mississippi River, Thebes, IL.

(a) Location. The following area is a safety zone: All navigable waters of the Upper Mississippi River from Mile Marker (MM) 40 to MM 45, extending the entire width of the river.

(b) Enforcement period. This section will be enforced from 7 a.m. on January 19, 2018 through 5 p.m. on January 26, 2018, or until the lightering operations cease, whichever occurs first.

(c) Regulations. (1) In accordance with the general regulations in § 165.23 of this part, entry of down-bounds vessels or persons into this zone is prohibited unless specifically authorized by the Captain of the Port Sector Ohio Valley (COTP) or designated representative. A designated representative is a commissioned, warrant, or petty officer of the U.S. Coast Guard assigned to units under the operational control of USCG Sector Ohio Valley.

(2) Vessels requiring entry into this safety zone must request permission from the COTP or a designated representative. To seek entry into the safety zone, contact the COTP or the COTP’s representative by telephone at 270–217–0959 or on VHF–FM channel 16.

(3) Persons and vessels permitted to enter this safety zone must transit at their slowest safe speed and comply with all lawful directions issued by the COTP or the designated representative.

(d) Information broadcasts. The COTP or a designated representative will inform the public through Broadcast Notices to Mariners of any changes in the planned schedule.

Dated: January 19, 2018

M.B. Zamerini,
Captain, U.S. Coast Guard, Captain of the Port Sector Ohio Valley.

[FR Doc. 2018–01336 Filed 1–24–18; 8:45 am]
Georgia, and Florida. The southern zone boundaries for Atlantic Spanish mackerel extend from the border of North Carolina and South Carolina, which is a line extending in a direction of 135°34′55″ true north beginning at 33°51′07.9″ N lat. and 78°32′32.6″ W long., and proceed south to the intersection point with the outward boundary of the EEZ, at 25°20′24″ N lat., which is a line directly east from the border of Miami-Dade and Monroe Counties, Florida.

The southern zone commercial quota for Atlantic Spanish mackerel is 2,667,330 lb (1,209,881 kg). Seasonally variable trip limits are based on an adjusted commercial quota of 2,417,330 lb (1,096,482 kg). The adjusted commercial quota is calculated to allow continued harvest in the southern zone at a set rate for the remainder of the current fishing year, through February 28, 2018, in accordance with 50 CFR 622.385(b)(2). Regulations at 50 CFR 622.384(c)(2)(iii) allow for quota transfers between the northern and southern zones with NMFS approval. On October 30, 2017, the State of Florida sent a letter to NMFS, requesting a transfer of 100,000 lb (45,359 kg) of the 2017–2018 Spanish mackerel commercial quota from the southern zone to the northern zone, as per the requirements of 50 CFR 622.384(c)(2)(iii). On November 1, 2017, NMFS notified the respective states that the quota transfer was approved. Accordingly, the revised commercial quota for the 2017–2018 fishing year for the Atlantic Spanish mackerel northern zone is 762,670 lb (345,941 kg) and the revised commercial quota for the southern zone is 2,567,330 lb (1,164,521 kg).

As specified at 50 CFR 622.385(b)(1)(ii)(B), after 75 percent of the adjusted commercial quota of Atlantic Spanish mackerel is reached or projected to be reached, Spanish mackerel in or from the EEZ in the southern zone may not be possessed onboard or landed from a permitted vessel in amounts exceeding 1,500 lb (680 kg) per day.

NMFS has determined that 75 percent of the adjusted commercial quota for Atlantic Spanish mackerel has been reached. Accordingly, the commercial trip limit of 1,500 lb (680 kg) per day applies to Atlantic Spanish mackerel in or from the EEZ in the southern zone effective 6 a.m., local time, on January 27, 2018, until 12:01 a.m., local time, March 1, 2018, unless changed by subsequent notification in the Federal Register.

**Classification**

The Regional Administrator for the NMFS Southeast Region has determined that this temporary rule is necessary for the conservation and management of Atlantic Spanish mackerel and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.385(b)(1)(ii)(B) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act, because the temporary rule is issued without opportunity for prior notice and opportunity for comment.

This action responds to the best scientific information available. The NOAA Assistant Administrator for Fisheries (AA) finds that the need to immediately reduce the trip limit for the commercial sector for Atlantic Spanish mackerel constitutes good cause to waive the requirements to provide prior notice and the opportunity for public comment pursuant to 5 U.S.C. 553(b)(B) as such procedures are unnecessary and contrary to the public interest. Such procedures are unnecessary because the rules implementing the quotas and trip limits have already been subject to notice and comment, and all that remains is to notify the public of the trip limit reduction.

Prior notice and opportunity for public comment is contrary to the public interest, because any delay in the trip limit reduction of the commercial harvest could result in the commercial quota being exceeded. There is a need to immediately implement this action to protect the Atlantic Spanish mackerel resource, because the capacity of the fishing fleet allows for rapid harvest of the commercial quota. Prior notice and opportunity for public comment would require additional time and could potentially result in a harvest well in excess of the established commercial quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in effectiveness of this action under 5 U.S.C. 553(d)(3).

**Authority:** 16 U.S.C. 1801 et seq.

Dated: January 22, 2018.

Samuel D. Rauch, III,
Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.
