

designations contained in the amended RMPs will have on commercial-scale renewable energy projects, including wind, solar and geothermal. In particular, the BLM seeks comment on the Areas of Critical Environmental Concern that were designated, including where private lands lie within the external boundaries of such designations, as well as comments on increasing opportunities for increased renewable energy development, recreational and off-highway vehicle (OHV) access, mining access, and grazing.

Finally, on January 8, 2018, the President signed an Executive Order on Streamlining and Expediting Requests to Locate Broadband Facilities in Rural America, which directs Federal agencies: “. . . to reduce barriers to capital investment, remove obstacles to broadband services, and more efficiently employ Government resources” in order to foster rural broadband infrastructure projects. Therefore, the BLM also seeks comment on the impact that land use designations, land disturbance limits (or “caps”), and visual management classifications contained in the amended RMPs may have on the deployment of future communications infrastructure.

You may submit comments in writing to the BLM at any public scoping meeting, or you may submit them to the BLM using the method listed in the **ADDRESSES** section. To be most helpful, you should submit comments by the close of the 45-day scoping period or within 15 days after the last public meeting, whichever is later.

The BLM will utilize and coordinate the NEPA scoping process to help fulfill the public involvement process under the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed action that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the

development of the environmental analysis as a cooperating agency.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed. The BLM will evaluate identified issues to be addressed in the plan, and will place them into one of three categories:

1. Issues to be resolved in the plan amendment;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this plan amendment.

The BLM will provide an explanation in the Draft Plan Amendment and NEPA document as to why an issue was placed in category two or three. The public is also encouraged to help identify any management questions and concerns that should be addressed in the plan. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns. The BLM will use an interdisciplinary approach to develop the plan amendment in order to consider the variety of resource issues and concerns identified.

#### SUPPLEMENTARY INFORMATION:

**Scope.**—For purposes of these investigations, the Department of Commerce has defined the subject merchandise as “all grades and granulation sizes of citric acid, sodium citrate, and potassium citrate in their unblended forms, whether dry or in solution, and regardless of packaging type. The scope also includes blends of citric acid, sodium citrate, and potassium citrate; as well as blends with other ingredients, such as sugar, where the unblended form(s) of citric acid, sodium citrate, and potassium citrate constitute 40 percent or more, by weight, of the blend.

The scope also includes all forms of crude calcium citrate, including dicalcium citrate monohydrate, and tricalcium citrate tetrahydrate, which are intermediate products in the production of citric acid, sodium citrate, and potassium citrate.

The scope includes the hydrous and anhydrous forms of citric acid, the dehydrate and anhydrous forms of sodium citrate, otherwise known as citric acid sodium salt, and the monohydrate and monopotassium forms of potassium citrate. Sodium citrate also includes both trisodium citrate and monosodium citrate which are also known as citric acid trisodium salt and citric acid monosodium salt, respectively.”<sup>1</sup>

Although the Department of Commerce has preliminarily determined that imports of citric acid and certain citrate salts from Thailand are not being and are not likely to be subsidized by the government of Thailand, for purposes of efficiency the Commission

hereby waives rule 207.21(b)<sup>2</sup> so that the final phase of the investigation may proceed concurrently in the event that Commerce makes a final affirmative determination with respect to such imports.
