SUPPLEMENTARY INFORMATION:

I. Background

On February 2, 2017, the Commission published an NPR in the **Federal Register**, proposing to amend its fireworks regulations under the Federal Hazardous Substances Act (FHSA; 15 U.S.C. 1261-1278), and seeking written comments. 82 FR 9012. The NPR proposed amendments that would create new requirements for fireworks devices, as well as modify or clarify existing requirements. On April 14, 2017, the Commission published a notice extending the comment period for the NPR to July 17, 2017. 82 FR 17947. The NPR is available at: <https://www.gpo.gov/fdsys/pkg/FR-2017-02-02/pdf/2017-02014.pdf> and Commission staff's briefing package for the NPR is available at: <https://www.cpsc.gov/s3fs-public/ProposedRuleAmendmentsToFireworksRegulations.pdf>.

In the Request for Comments section of the NPR (82 FR 9029), the

Commission sought information on specific topics, in addition to requesting comments on all aspects of the proposed rule. Comments on the topics listed in the NPR would be helpful at the public hearing. In particular, the Commission would find information and data on the following topics useful:

- The public safety need for the proposed chemical composition and pyrotechnic weight limits for ground devices;
- the public safety need for prohibiting hexachlorobenzene and lead tetroxide and other lead compounds in fireworks devices;
- the public safety need for the proposed test method to evaluate side ignition and the appropriateness of the proposed ignition-resistance period;
- the public safety need for the proposed ban of fireworks devices that project fragments when functioning; and
- the appropriate trace contamination allowance levels for prohibited chemicals.

II. The Public Meeting

Under the FHSA and the Administrative Procedure Act (5 U.S.C. 551-562), the Commission must provide interested parties with an opportunity to submit "written data, views, or arguments" regarding a proposed rule. 5 U.S.C. 553(c). Neither statute requires the Commission to provide an opportunity for oral comments about a rulemaking, but the Commission is providing this forum to give interested parties an additional opportunity to comment on the NPR.

To request the opportunity to make an oral presentation, see the information under the **DATES** and **ADDRESSES** sections of this notice. Participants should limit their presentations to approximately 10 minutes, excluding time for questioning by the Commissioners or CPSC staff. To avoid duplicate presentations, groups should designate a spokesperson, and the Commission reserves the right to limit presentation times or impose further restrictions, as necessary.

Alberta E. Mills,

Acting Secretary, Consumer Product Safety Commission.
