Cancellation of Withdrawal Application and Withdrawal Proposal and Termination of Environmental Impact Statement for California Desert Conservation Area Withdrawal, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of cancellation.

SUMMARY: The Bureau of Land Management (BLM) has canceled its withdrawal application and the withdrawal proposal relating to 1,337,904 acres of public lands within designated California Desert National Conservation Lands. The BLM has determined that the lands are no longer needed in connection with the proposed withdrawal. This notice terminates the temporary segregation from location and entry under the United States mining laws, subject to valid existing rights, the provision of existing withdrawals, other segregations of record, and the requirements of applicable law, as described further below. The BLM has also terminated the preparation of an

Environmental Impact Statement evaluating this application and proposal.

DATES: This Notice is applicable on February 7, 2018.

FOR FURTHER INFORMATION CONTACT: Russell Scofield, Desert Renewable Energy Conservation Plan Implementation Lead, phone: 760-833-7139, 1201 Bird Center Drive, Palm Springs, CA 92262-8001; email ascofiel@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to reach the BLM contact person. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Withdrawal was published in the **Federal Register** (81 FR 95738) on December 28, 2016, of the Department's proposal to withdraw 1,337,904 acres of public lands within designated California Desert National Conservation Lands from location and entry under the United States mining laws, but not from mineral or geothermal leasing or mineral materials laws, subject to valid existing rights. Because the BLM has determined that the lands are no longer needed in connection with the proposed withdrawal, the BLM has canceled the proposed withdrawal and its application in support thereof and has terminated the associated environmental analysis process.

Pursuant to 43 CFR 2310.1-4, the segregative effect for the lands described in 81 FR 95738 is terminated and the lands opened as follows: At 10 a.m. on March 9, 2018, the public lands described will be opened to location and entry under the United States mining laws, subject to valid existing rights, the provision of existing withdrawals, other segregations of record, and the requirements of applicable law. Appropriation of lands under the mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38, shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The BLM will not intervene in disputes between rival locators over possessory rights given that Congress

has provided for such determinations in local courts.

California State Director.

Certain forged stainless steel flanges are generally manufactured to, but not limited to, the material specification of ASTM/ASME A/SA182 or comparable domestic or foreign specifications . . . Unfinished stainless steel flanges possess the approximate shape of finished stainless steel flanges and have not yet been machined to final specification after the initial forging or like operations . . . The sizes and descriptions of the flanges within the scope include all pressure classes of ASME B16.5 and range from one-half inch to twenty-four inches nominal pipe size. Specifically excluded from the scope of these orders are cast stainless steel flanges.” For a complete description of the scope in these investigations, please refer to Appendix I in the following FR notices, 83 FR 3118, January 23, 2018 and 83 FR 3124, January 23, 2018.

Background.—The final phase of these investigations is being scheduled pursuant to sections 705(b) and 731(b) of the Act (19 U.S.C. 1671d(b) and 1673d(b)), as a result of affirmative preliminary determinations by the Department of Commerce that certain benefits which constitute subsidies within the meaning of section 703 of the Act (19 U.S.C. 1671b) are being provided to manufacturers, producers, or exporters in China and India of stainless steel flanges, and that such products are being sold in the United States at less than fair value within the meaning of section 733 of the Act (19 U.S.C. 1673b). The investigations were requested in petitions filed on August 16, 2017, by Core Pipe Products, Inc., Carol Stream, Illinois and Maass Flange Corporation, Houston, Texas.

The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI gathered in the final phase of these investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made no later than 21 days prior to the hearing date specified in this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the investigations. A party granted access to BPI in the preliminary phase of the investigations need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Additional written submissions to the Commission, including requests pursuant to section 201.12 of the Commission’s rules, shall not be accepted unless good cause is shown for accepting such submissions, or unless the submission is pursuant to a specific request by a Commissioner or Commission staff.

In accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. SUPPLEMENTARY INFORMATION:

I. Summary

The Legal Services Corporation (LSC) issues this Notice describing the criteria governing submission and processing of Letters of Intent to Apply for Technology Initiative Grants (TIG). Since LSC's TIG program was established in 2000, LSC has made over 700 grants totaling more than \$63 million. This grant program funds technology tools that help achieve LSC's goal of increasing the quantity and quality of legal services available to eligible persons. Projects funded under the TIG program develop, test, and replicate innovative technologies that can enable grant recipients and state justice communities to improve low-income persons' access to high-quality legal assistance through an integrated and well managed technology system.

II. General Information

The Legal Services Corporation awards Technology Initiative Grant funds through an open, competitive, and impartial selection process. All prospective applicants for 2018 TIG funds must submit a Letter of Intent to Apply (LOI) prior to submitting a formal application. The format and contents of the LOI should conform to the requirements specified below in Section IV.

Through the LOI process, LSC selects those projects that have a reasonable chance of success in the competitive grant process based on LSC's analysis of the project description and other information provided in the LOI. LSC will solicit full proposals for the selected projects.

LSC Requirements

Technology Initiative Grant funds are subject to all LSC requirements, including the requirements of the Legal Services Corporation Act (LSC Act), any applicable appropriations acts and any other applicable laws, rules, regulations, policies, guidelines, instructions, and other directives of the Legal Services Corporation (LSC), including, but not limited to, the LSC Audit Guide for Recipients and Auditors, the Accounting Guide for LSC Recipients, and the CSR Handbook, with any

amendments to the foregoing adopted before or during the period of the grant. Before submitting a Letter of Intent to Apply, applicants should be familiar with LSC's subgrant requirements at 45 CFR Part 1627 (see <http://www.lsc.gov/about/laws-regulations/lsc-regulations-cfr-45-part-1600-et-seq>), particularly as they pertain to payments of LSC funds to other entities for programmatic activities.

For additional information and resources regarding TIG compliance, including subgrants, third-party contracting, conflicts of interest, grant modification procedures, and special TIG grant assurances, see LSC's TIG compliance web page.

Eligible Applicants

Only current LSC basic field grant recipients awarded at least a one-year basic field grant term are eligible to apply for TIG.

LSC will not award a TIG to any applicant that is not in good standing on any existing TIG projects. Applicants must be up to date according to the milestone schedule on all existing TIG projects prior to submitting an LOI, or have requested and received an adjustment to the original milestone schedule. LSC will not award a TIG to any applicant that has not made satisfactory progress on prior TIGs. LSC recipients that have had a previous TIG terminated for failure to provide timely reports and submissions are not eligible to receive a TIG for three years after their earlier grant was terminated. This policy does not apply to applicants that worked with LSC to end a TIG early after an unsuccessful project implementation resulting from technology limitations, a failed proof of concept, or other reasons outside of the applicant's control.

Funding Availability

The amount of TIG funding available will depend on the 2018 fiscal year appropriation to the LSC from Congress, which had not been determined by January 31, 2018, the date this notice was issued. The federal government is currently operating under a Continuing Resolution (CR) that expires February 8, 2018. The Continuing Resolution maintains funding at FY 2017 levels, which for TIG is \$4 million, but with an across-the-board reduction of 0.6791 percent, or \$27,164 for TIG. We anticipate that Congress will pass another CR to continue funding the federal government at FY 2017 levels if they do not pass an FY 2018 budget by midnight February 8th. If not, the federal government will shut down. In 2017, 25 TIG projects received funding
