

will be assessed the lower fee. The Exchange believes that the complex fee structure as proposed will remain attractive to market participants, who will continue to be charged lower fees for adding liquidity to the complex order book than for removing liquidity. ISE notes that other options exchanges assess similar surcharges on complex orders that remove liquidity from the complex order book.²¹

The Exchange's proposal to adopt the \$0.03 per contract Non-Priority Customer complex order surcharge in the manner discussed above is equitable and not unfairly discriminatory because the surcharge will apply to all similarly-situated market participants.

Update Fee Schedule Headings

The Exchange believes that the clean-up changes to update the section headings in its Schedule of Fees is reasonable, equitable and not unfairly discriminatory because these are non-substantive changes intended to make the Schedule of Fees more transparent to members and investors.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposed fees and rebates are designed to attract additional order flow to ISE, and the Exchange believes that its complex order pricing remains attractive to market participants. The Exchange operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

²¹ Nasdaq PHLX ("Phlx"), CBOE Options ("CBOE"), and MIAX Options ("MIAX") assess similar surcharges for complex order executions that remove liquidity from the complex order book for non-penny classes. See Phlx Pricing Schedule, Section II, note 7; CBOE Fees Schedule, Complex Surcharge, and note 35; and MIAX Fee Schedule, Sections (1)(a)(i) and (ii).

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,²² and Rule 19b-4(f)(2)²³ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

ICE is a publicly traded company listed on the NYSE.

⁵ See Del. Code tit 6, § 18-104, and Del. Code tit 8, §§ 131 and 132.

⁶ Some of the Governing Documents were recently amended. See Securities Exchange Act Release No. 82083 (November 15, 2017), 82 FR 55453 (November 21, 2017) (SR-NYSEArca-2017-125).
