Lock +TM Hydro Friends Fund III; Notice of Surrender of Preliminary Permit

Take notice that Lock +TM Hydro Friends Fund III, permittee for the proposed Selden Lock and Dam Hydroelectric Project, has requested that its preliminary permit be terminated. The permit was issued on June 3, 2016, and would have expired on May 31, 2019.¹ The project would have been located on the Black Warrior River, in Green and Hale Counties, Alabama.

The preliminary permit for Project No. 14672 will remain in effect until the close of business, March 8, 2018. If the Commission is closed on this day, then the permit remains in effect until the close of business on the next day in which the Commission is open.² New applications for this site may not be submitted until after the permit surrender is effective.

Dated: February 6, 2018.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF18-1-000]

Northern Natural Gas Company; Notice of Intent To Prepare an Environmental Assessment for the Planned Northern Lights 2019 Expansion Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Northern Lights 2019 Expansion Project involving construction and operation of facilities by Northern Natural Gas Company (Northern) in Olmsted, Freeborn, Mower, Morrison, Carver, Hennepin, Wright, Le Sueur, Rice, and Steele Counties, Minnesota. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before March 8, 2018.

If you sent comments on this project to the Commission before the opening of this docket on October 10, 2017, you will need to file those comments in Docket No. PF18-1-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC website (www.ferc.gov). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.
