The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final supplemental environmental impact statement (SEIS) to address the August 22, 2017 Opinion issued by the United States Court of Appeals for the District of Columbia regarding the Commission's environmental review of the Southeast Market Pipelines (SMP) Project.

The final SEIS estimates the greenhouse gas emissions generated by the SMP Project's customers' downstream facilities, describes the methodology used to determine these estimates, discusses context for understanding the magnitude of these emissions, describes the Commission's past policy on use of the Social Cost of Carbon tool, and as appropriate, addresses comments on the draft SEIS issued on September 27, 2017.

Commission staff will mail copies of the final SEIS to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. Additionally, the final SEIS is available for public viewing on the FERC's website ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link.
