BILLING CODE 4164-01-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2018-0051]

Drawbridge Operation Regulation; Sloop Channel, Hempstead, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Wantagh State Parkway Bridge across Sloop Channel, mile 15.4, at Hempstead, New York. This deviation is necessary in order to facilitate an annual fireworks display and allows the bridge to remain in the closed position for three hours.

DATES: This deviation is effective from 9 p.m. to 11:59 p.m. on July 4, 2018.

ADDRESSES: The docket for this deviation, USCG-2018-0051, is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Judy K. Leung-Yee, Bridge Management Specialist, First District Bridge Branch, U.S. Coast Guard; telephone 212-514-4336, email Judy.K.Leung-Yee@uscg.mil.

SUPPLEMENTARY INFORMATION: The New York State Office of Parks, Recreation, and Historic Preservation requested and the bridge owner, the New York State Department of Transportation, concurred with this temporary deviation from the normal operating schedule to facilitate a public fireworks display.

The Wantagh State Parkway Bridge, across Sloop Channel, mile 15.4, has a vertical clearance of 16 feet at mean high water and 19.5 feet at mean low water in the closed position. The existing drawbridge operating regulation is listed at 33 CFR 117.5.

The temporary deviation will allow the Wantagh Parkway Bridge to remain closed from 9 p.m. to 11:59 p.m. on July 4, 2018. Sloop Channel is transited by seasonal recreational vessels and commercial fishing vessels. Coordination with Coast Guard Sector Long Island Sound has indicated no mariner objections to the proposed short-term closure of the draw.

Vessels that can pass under the bridge without an opening may do so at all times. The bridge will be able to open for emergencies. There is no alternate route for vessels to pass.

The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 1, 2018.

Christopher J. Bisignano,

Supervisory Bridge Management Specialist, First Coast Guard District.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2018-0080]

Drawbridge Operation Regulation; Hampton River, Hampton, NH

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the SR1A Bridge across the Hampton River, mile 0.0, at Hampton, NH. The deviation is necessary to allow the replacement of couplers on the bridge. This deviation allows the bridge to be closed to navigation.

DATES: This deviation is effective from 6:30 a.m. on February 19, 2018 to 11:59 p.m. on March 23, 2018.

ADDRESSES: The docket for this deviation, USCG-2018-0080 is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Jeffrey Stieb, First Coast Guard District Bridge Branch, Coast Guard; telephone 617-223-8364, email Jeffrey.D.Stieb@uscg.mil.

SUPPLEMENTARY INFORMATION: The owner of the bridge, the New Hampshire Department of Transportation (NH DOT), requested a temporary deviation to replace the failed couplings to the operating machinery of the bridge. The SR1A Bridge across the Hampton River, mile 0.0, at Hampton, New Hampshire, has a vertical clearance in the closed position of 18 feet at mean high water and 26.5 feet at mean low water. The existing bridge operating regulations are found at 33 CFR 117.67.

This temporary deviation allows the bridge to remain in the closed to navigation position from 6:30 a.m. on February 19, 2018, through 11:59 p.m. on March 23, 2018. The deviation will have negligible effect on vessel navigation. The waterway is transited primarily by seasonal recreational vessels and small commercial fishing vessels. In 2016 and in 2017 there were only three openings in the month of March.

NH DOT has met and maintained frequent communication with waterway users, the harbormaster and town officials through direct contact and public meetings. No objections to the proposed closure were received. Vessels that can pass through the bridge in the closed position may do so. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels unable to pass through the bridge in the closed position. The Coast Guard will inform waterway users of the closure through Local and Broadcast Notices to Mariners in order to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
