DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: U.S. Census Bureau.

Title: Manufacturers' Shipments, Inventories, and Orders (M3) Survey.

OMB Control Number: 0607-0008.

Form Number(s): M-3(SD).

Type of Request: Extension of a currently approved collection.

Number of Respondents: 5,000.

Average Hours per Response: 20 minutes.

Burden Hours: 20,000.

Needs and Uses: The U.S. Census Bureau is requesting an extension of the currently approved collection for the Manufacturers' Shipments, Inventories, and Orders (M3) survey. This survey collects monthly data from domestic manufacturers on Form M-3 (SD), which is mailed at the end of each month. Data requested are shipments, new orders, unfilled orders, and inventories by stage of fabrication. It is currently the only survey that provides broad-based monthly statistical data on the economic conditions in the domestic manufacturing sector. The survey is designed to measure current industrial activity and to provide an indication of future production commitments. The value of shipments

measures the value of goods delivered during the month by domestic manufacturers. Estimates of new orders serve as an indicator of future production commitments and represent the current sales value of new orders received during the month, net of cancellations. Substantial accumulation or depletion of backlogs of unfilled orders measures excess (or deficient) demand for manufactured products. The level of inventories, especially in relation to shipments, is frequently used to monitor the business cycle.

The M3 survey has been conducted monthly by the U.S. Census Bureau since 1957. The Advance Report on Durable Goods, Manufacturers' Shipments, Inventories and Orders is an advance snapshot of the current value of manufacturing in the U.S. It is available about 18 working days after each month. The M3 survey also produces the Full Report on Manufacturers' Shipments, Inventories and Orders. This report details information on the durable goods industries, and also includes the non-durable goods industries. In addition, the Full Report captures late receipts, and is available about 23 working days after each month.

This survey provides an essential component of the current economic indicators needed for assessing the evolving status of the economy and formulating economic policy. The Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget (OMB) has designated this survey as a principal federal economic indicator. The shipments and inventories data are essential inputs to the gross domestic product (GDP), while the orders data are direct inputs to The Conference Board Leading Economic Index (LEI), which is a composite index of ten key elements designed to monitor the business cycle (<https://www.conference-board.org/data/bcicountry.cfm?cid=1>). The GDP and the LEI would be incomplete without these data. Orders for durable goods are an important leading economic indicator. Businesses and consumers generally place orders for durable goods when they are confident the economy is improving. A durable goods report showing an increase in orders is a sign that the economy is trending upwards. Durable goods orders tell investors what to expect from the manufacturing sector, a major component of the economy. The M3 survey also provides valuable and timely domestic manufacturing data for economic planning and analysis to business firms, trade associations, research and consulting agencies, and academia.
