Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

History

The FAA published a final rule in the **Federal Register** (82 FR 27988; June 20, 2017) for Docket No. FAA-2016-9476 establishing Class E en route airspace extending upward from 1,200 feet above the surface centered near Sacramento, CA. The FAA found that this airspace encompasses the Class E 1,200-foot airspace for Sunol, CA.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by removing Class E airspace extending upward from 1,200 feet above the surface at Sunol, CA. The existing airspace area designated for Sunol, CA, is wholly contained within the Sacramento en route airspace area, and duplication is not necessary.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B, dated August 3, 2017 and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an

established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

[Docket No. FAA–2017–1145; Airspace Docket No. 17–AWP–19]

Proposed Amendment of Class E Airspace; Kamuela, HI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E surface area airspace and Class E airspace extending upward from 700 feet above the surface at Waimea-Kohala Airport, Kamuela, HI. The part-time Notice to Airmen (NOTAM) status would be removed from Class E surface area airspace, references to the Kamuela VOR/DME would be removed from all associated Class E airspace areas, and airspace boundaries would be modified to only that area necessary to contain instrument flight rules (IFR) operations at the airport. Airspace redesign is necessary as the FAA transitions from ground-based to satellite-based navigation for the safety and management of the national airspace system. Also, an editorial change would be made removing the airport name and replacing it with the city in the airspace designators for the above airspace areas.

DATES: Comments must be received on or before April 9, 2018.
