BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Docket No. FAA-2017-1146; Airspace
Docket No. 17-AWP-16]

**Proposed Amendment of Class D and
Class E Airspace, and Removal of
Class E Airspace; Lompoc, CA**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM).

SUMMARY: This action proposes to amend Class D airspace, Class E airspace extending upward from 700 feet above the surface, and remove Class E airspace designated as an extension at Vandenberg Air Force Base (AFB), Lompoc, CA. This action also proposes to modify Class E airspace extending upward from 700 feet above the surface at Lompoc Airport, Lompoc, CA, by enlarging the airspace and removing the part-time Notice to Airmen (NOTAM) status. This action would also amend the geographic coordinates of the airports to match the FAA's aeronautical database. This action is necessary for the safety and management of instrument flight rules (IFR) operations at these airports. An editorial change would be made removing the city associated with the airport name in the airspace designator for Vandenberg AFB, as well as removing exclusionary language from the description. Additionally, this action would replace the outdated term "Airport/Facility Directory" with the term "Chart Supplement".

DATES: Comments must be received on or before April 9, 2018.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D, Class E airspace, and remove Class E airspace designated as an extension at Lompoc, CA, in support of IFR operations at Vandenberg AFB and Lompoc Airport.

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (Docket No. FAA-2017-1146; Airspace Docket No. 17-AWP-16) and be submitted in triplicate to DOT Docket Operations (see **ADDRESSES** section for address and phone number).

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11B, *Airspace Designations and Reporting Points*, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by enlarging Class D airspace, reducing Class E airspace extending upward from 700 feet above the surface, and removing Class E airspace designated as an extension at Vandenberg Air Force Base (AFB), Lompoc, CA, and also would amend Class E airspace extending upward from 700 feet above the surface and remove part-time NOTAM status at Lompoc Airport, Lompoc, CA.

Class D airspace would be enlarged to within a 5-mile radius (from a 4.3-mile radius) of Vandenberg AFB. Additionally, an editorial change would remove the city associated with the airport name in the airspace designation to comply with a recent change to FAA Order 7400.2L, dated October 12, 2017. An editorial change also would be made to the Class D airspace legal description replacing “Airport/Facility Directory” with “Chart Supplement”.

Class E airspace designated as an extension would be removed, as this airspace is not required to protect IFR arrival and departure aircraft at Vandenberg AFB.

Class E airspace extending upward from 700 feet above the surface at Vandenberg AFB would be modified to a 7.3-mile radius of the airport with extensions to 11 miles north, 12.5-miles southeast, and 11 miles south of the airport (from a 7.8-mile radius of the airport and within 1.8 miles each side of the Vandenberg AFB ILS localizer southeast course, extending from 7.8 miles to 10.3 miles southeast of the airport). The exclusionary language contained in the legal description would be removed to comply with FAA Order 7400.2L, *Procedures for Handling Airspace Matters*.

This action also would amend Class E airspace extending upward from 700 feet above the surface at Lompoc Airport, Lompoc, CA, by enlarging the airspace to within a 6.4-mile radius of the airport, and within 4 miles each side

of the 090° bearing from the airport extending from the 6.4-mile radius to 12.8 miles east of the airport, and within 4 miles each side of the 113° bearing from the airport extending from the 6.4-mile radius to 20.4 miles southeast of the airport (from a 4.3-mile radius of the airport and within 4.3 miles each side of the Gaviota VORTAC 293° radial extending from the 4.3-mile radius to 10.9 miles west of the Gaviota VORTAC and within 4 miles each side of the 083° bearing from the Lompoc NDB to 8 miles east of the NDB. Also, the part-time NOTAM status would be removed, since this airspace is effective continuously.

Finally, this action would update the geographic coordinates of these airports to match the FAA’s aeronautical database.

Class E airspace designations are published in paragraph 5000, 6004, and 6005, respectively, of FAA Order 7400.11B, dated August 3, 2017 and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
