Abstract: The affected entities are subject to the General Provisions of the NESHAP (40 CFR part 63, subpart A), and any changes, or additions to the Provisions are specified at 40 CFR part 63, subpart W. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP. Sources are owners/operators of facilities which produce polymers and resins from epichlorohydrin and sources which manufacture epichlorohydrin-modified non-nylon polyamide resins. EPA and delegated states will use the information identify new, modified, reconstructed, or existing sources, or process changes which may affect the source's status and to ensure that affected sources are meeting the standards.

Form numbers: None.

Respondents/affected entities: Epoxy resin and non-nylon polyamide production facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart W).

Estimated number of respondents: 7 (total).

Frequency of response: Initially, occasionally, quarterly and semiannually.

Total estimated burden: 3,940 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$424,000 (per year), which includes \$9,000 in either annualized capital or operation & maintenance costs.

Changes in the estimates: There is a small decrease in the respondent labor

hours in this ICR compared to the previous ICR. This is due to two considerations: (1) There was a duplicative recordkeeping line item for SSM periods in the previous renewal; and (2) records of initial performance test, performance evaluations, and initial notifications have passed the five-year record retention period and are no longer required. These burden activities have been removed in this ICR.

Director, Regulatory Support Division.
