

Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at

www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the General Provisions (40 CFR part 63, subpart A), as well as for the specific requirements at 40 CFR part 63, subpart UUUU. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with these standards.

Form numbers: None.

Respondents/affected entities: Cellulose products manufacturing plants.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart UUUU).

Estimated number of respondents: 13 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 12,200 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,280,000 (per year), which includes \$1,010 in either annualized capital and/or operation & maintenance costs.

Changes in the estimates: There is an adjustment increase in the total estimated burden and cost as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in the respondent labor hour estimates occurred because of a change in assumption. This ICR assumes all existing respondents will have to familiarize with the regulatory requirements each year. The number of responses increased because this ICR accounts for semiannual wastewater reports in calculating the number of responses, correcting an inconsistency in the previous ICR.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9974-38-OECA]

National Environmental Justice Advisory Council; Notification of Request for Nominations to the National Environmental Justice Advisory Council

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for nominations to the National Environmental Justice Advisory Council (NEJAC).

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations from a diverse range of qualified candidates to be considered for appointment to its National Environmental Justice Advisory Council (NEJAC). The NEJAC was chartered to provide advice regarding broad, cross-cutting issues related to environmental justice. This notice solicits nominations to fill approximately four (4) new vacancies for terms through September, 2019. To maintain the representation outlined by the charter, nominees will be selected to represent: academia (2 vacancies); business and industry (1 vacancy); and state and local government (1 vacancy). Vacancies are anticipated to be filled by September 2018. Sources in addition to this **Federal Register** Notice will be utilized in the solicitation of nominees.

DATES: Nominations should be submitted in time to arrive no later than Friday, April 13, 2018.

ADDRESS: Submit nominations electronically with the subject line NEJAC Membership 2018 to nejac@epa.gov. You also may submit nominations by mail to: Karen L. Martin, NEJAC Program Manager, Office of Environmental Justice, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW (MC 2201A), Washington, DC 20460. Non-electronic submissions must follow the same format and contain the same information. The Office of Environmental Justice will acknowledge receipt of nominations.

FOR FURTHER INFORMATION CONTACT:

Karen L. Martin, NEJAC Program Manager, U.S. EPA; email: martin.karenl@epa.gov; telephone: (202) 564-0203; or by fax: (202) 564-1624.

SUPPLEMENTARY INFORMATION: The NEJAC is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), Public Law 92-463. EPA established the NEJAC in 1993 to provide independent consensus advice to the EPA Administrator about a broad range of environmental issues related to environmental justice. The NEJAC conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations.

The Council consists of 30 members (including a Chairperson and two Vice-Chairpersons) appointed by EPA's Administrator. Members serve as non-federal stakeholders representing: Six (6) from academia, four (4) from business and industry; seven (7) from community based organizations; six (6) from non-governmental/environmental organizations; four (4) from state and local governments; and three (3) from tribal governments and indigenous organizations, of which one member serves as a liaison to the National Tribal Caucus. Members are appointed for one (1), two (2) or three (3)-year terms with the possibility of reappointment for another term.

The NEJAC usually meets face-to-face twice a year, generally in the Spring and the Fall. Additionally, members may be asked to participate in teleconference meetings or serve on work groups to develop recommendations, advice letters, and reports to address specific policy issues. The average workload for members is approximately 5 to 8 hours per month. EPA provides reimbursement for travel and other incidental expenses associated with official government business.

Nominations: Any interested person and/or organization may nominate qualified individuals for membership. The EPA values and welcomes

diversity. In an effort to obtain nominations of diverse candidates, the Agency encourages nominations of women and men of all racial and ethnic groups. All nominations will be fully considered, but applicants need to be aware of the specific representation sought as outlined in the Summary above. In addition, EPA is seeking nominees with knowledge in community sustainability, environmental financing, public health and health disparities, solid and hazardous waste, land use and equitable development, environmental sociology and social science. Other criteria used to evaluate nominees will include:

- The background and experience that would help members contribute to the diversity of perspectives on the committee (e.g., geographic, economic, social, cultural, educational background, professional affiliations, and other considerations;
- demonstrated experience with environmental justice and community sustainability issues at the national, state, or local level;
- excellent interpersonal and consensus-building skills;
- ability to volunteer time to attend meetings 2–3 times a year, participate in teleconference meetings, attend listening sessions with the Administrator or other senior-level officials, develop policy recommendations to the Administrator, and prepare reports and advice letters; and
- willingness to commit time to the committee and demonstrated ability to work constructively and effectively on committees.

How To Submit Nominations: Any interested person or organization may nominate qualified persons to be considered for appointment to this advisory committee. Individuals are encouraged to self-nominate. Nominations can be submitted in electronic format (preferred) following the template available at <https://www.epa.gov/environmentaljustice/nominations-nejac>. To be considered, all nominations should include:

- Current contact information for the nominee, including the nominee's name, organization (and position within that organization), current business address, email address, and daytime telephone number.
- Brief Statement describing the nominees interest in serving on the NEJAC.
- Résumé and a short biography (no more than 2 paragraphs) describing the professional and educational qualifications of the nominee, including a list of relevant activities, and any

current or previous service on advisory committees.

- Letter[s] of recommendation from a third party supporting the nomination. Letter[s] should describe how the nominee's experience and knowledge will bring value to the work of the NEJAC.

Other sources, in addition to this **Federal Register** notice, may also be utilized in the solicitation of nominees. To help the EPA in evaluating the effectiveness of its outreach efforts, please tell us how you learned of this opportunity.

Dated: February 2, 2018.

Matthew Tejada,

Designated Federal Officer, National Environmental Justice Advisory Council.

Alternative Method for Calculating Off-Cycle Credits Under the Light-Duty Vehicle Greenhouse Gas Emissions Program: Applications From General Motors and Toyota Motor North America

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is requesting comment on applications General Motors (GM), and Toyota Motor North America (Toyota) for off-cycle carbon dioxide (CO₂) credits under EPA's light-duty vehicle greenhouse gas emissions standards. "Off-cycle" emission reductions can be achieved by employing technologies that result in real-world benefits, but where that benefit is not adequately captured on the test procedures used by manufacturers to demonstrate compliance with emission standards. EPA's light-duty vehicle greenhouse gas program acknowledges these benefits by giving automobile manufacturers several options for generating "off-cycle" carbon dioxide (CO₂) credits. Under the regulations, a manufacturer may apply for CO₂ credits for off-cycle technologies that result in off-cycle benefits. In these cases, a manufacturer must provide EPA with a proposed methodology for determining the real-world off-cycle benefit. These two manufacturers have submitted applications that describe methodologies for determining off-cycle credits. The off-cycle technologies vary by manufacturer and include thermal

control technologies such as high efficiency alternators, an efficient air conditioning compressor, and active climate control seats. Pursuant to applicable regulations, EPA is making descriptions of each manufacturer's off-cycle credit calculation methodologies available for public comment.

DATES: Comments must be received on or before March 28, 2018.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OAR–2017–0754, to the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Roberts French, Environmental Protection Specialist, Office of Transportation and Air Quality, Compliance Division, U.S. Environmental Protection Agency, 2000 Traverwood Drive, Ann Arbor, MI 48105. Telephone: (734) 214–4380. Fax: (734) 214–4869. Email address: french.roberts@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

EPA's light-duty vehicle greenhouse gas (GHG) program provides three pathways by which a manufacturer may accrue off-cycle carbon dioxide (CO₂) credits for those technologies that achieve CO₂ reductions in the real world but where those reductions are not adequately captured on the test used to determine compliance with the CO₂ standards, and which are not otherwise reflected in the standards' stringency. The first pathway is a predetermined list of credit values for specific off-cycle technologies that may be used beginning
