**Abstract of Proposed Collection**

DDTC regulates the export and temporary import of defense articles and services enumerated on the USML in accordance with the Arms Export Control Act (AECA) (22 U.S.C. 2751 *et seq.*) and the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120-130). In accordance with ITAR § 124.1, any person who intends to furnish defense services or technical data to a foreign person must submit a proposed technical assistance, manufacturing, or distribution license agreement and obtain prior authorization from DDTC for such agreement. Amendments to existing agreements must also be submitted for approval. The electronic mechanism utilized for submitting, reviewing, and approving agreement proposals is the Defense Trade Application Systems (DTAS). Specifically, this process utilizes the DSP-5 license application as the primary instrument or "vehicle" for transmitting agreements and their respective amendments from one phase of the adjudication process to the next.

**Methodology**

Respondents will submit information as attachments to relevant license applications or requests for other approval.

*Abstract of Proposed Collection*

The ITAR requires that persons registered with DDTC maintain records pertaining to defense trade-related transactions. This information collection approves the record-keeping requirements imposed on registrants by the ITAR. Respondents to this collection may submit their records to DDTC as supporting documentation for disclosures of potential violations of the AECA. The method by which respondents submit these records is approved under OMB Control No. 1405-0179. DDTC uses these records to

analyze registrant compliance processes and procedures, and to help assess whether potential AECA or ITAR violations merit administrative sanctions or referral to the Department of Justice for possible criminal prosecution.

*Methodology*

Respondents may maintain records in any format consistent with the provisions in ITAR § 122.5.

Dated: February 20, 2018.
