BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[FE Docket No. 18-15-LNG]

Southern LNG Company, L.L.C.; Application for Blanket Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Countries on a Short-Term Basis

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on February 1, 2018, by Southern LNG Company, L.L.C. (Southern LNG). The Application requests blanket authorization to export domestically produced and previously imported liquefied natural gas (LNG) in an amount up to the equivalent of 255 billion cubic feet (Bcf) of natural gas on a cumulative basis over a two-year period, commencing on the date of the initial short-term export. The LNG would be exported from the Elba Liquefaction Project (Liquefaction Project), which is currently under construction at the Elba Island Terminal on Elba Island, Chatham County, Georgia. Southern LNG requests authorization to export the LNG to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy, including both countries with which the United States has entered into a free trade agreement

(FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). Southern LNG seeks to export this LNG before commercial operations at the Liquefaction Project begin. Southern LNG requests this authorization on its own behalf and as agent for other entities who hold title to the natural gas at the time of export. Additional details can be found in Southern LNG's Application, posted on the DOE/FE website at: <https://energy.gov/fe/southern-lng-company-llc-18-15-lng-export-lng>.

any volumes exported under Southern LNG's existing long-term export authorization, will not exceed 130 Bcf in any annual (consecutive 12-month) period.

DOE/FE Evaluation

The portion of the Application seeking authority to export LNG on a short-term basis to non-FTA countries will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. In reviewing this Application, DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the following two studies examining the cumulative impacts of exporting domestically produced LNG:

- *Effect of Increased Levels of Liquefied Natural Gas on U.S. Energy Markets*, conducted by the U.S. Energy Information Administration upon DOE's request (2014 EIA LNG Export Study)¹ and
- *The Macroeconomic Impact of Increasing U.S. LNG Exports*, conducted jointly by the Center for Energy Studies at Rice University's Baker Institute for Public Policy and Oxford Economics, on behalf of DOE (2015 LNG Export Study).²

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);³ and
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014).⁴

Parties that may oppose this Application should address these issues and documents in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. FLEX states that no new construction or changes to the Liquefaction Project facilities will be required for the short-term exports requested in the Application. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Interested persons will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, notices of intervention, or motions for additional procedures.
