Biodiesel From Indonesia: Final  
Determination of Sales at Less Than  
Fair Value  
AGENCY: Enforcement and Compliance,  
International Trade Administration,  
Department of Commerce.  
SUMMARY: The Department of Commerce  
(Commerce) determines that imports of  
biodiesel from Indonesia are being, or  
are likely to be, sold in the United States  
at less than fair value (LTFV), as  
provided in section 735 of the Tariff Act  
of 1930, as amended (the Act). The  
period of investigation (POI) is January  
1, 2016, through December 31, 2016. The  
final weighted-average dumping  
margins are listed below in the section  
titled “Final Determination Margins.”  
DATES: Applicable March 1, 2018.

respectively.  
SUPPLEMENTARY INFORMATION:  
Background  
On October 31, 2017, Commerce  
published in the Federal Register the  
preliminary affirmative determination of  
sales at LTFV in the antidumping duty  
(AD) investigation of biodiesel from  
Indonesia.  

1 On December 8, 2017, Commerce  
published a postponement notice,  
extending the due date of the final  
LTFV determination until February  
15, 2018.  

2 Commerce invited comments from  
interested parties on the Preliminary  
Determination. The petitioner, Wilmar,  
and Musim Mas filed case and rebuttal briefs on both  
sales and cost issues. In addition, the  
Government of Indonesia filed a case  
brief. Commerce exercised its discretion to  
toll deadlines affected by the closure of the  
Federal Government from January  
20 through 22, 2018. The revised  
deadline for the final determination of  
this investigation is now February 20, 2018.  

3 A summary of the events that  
occurred since Commerce published the  
Preliminary Determination, as well as a  
full discussion of the issues raised by  
interested parties for this final  
determination, may be found in the

Decision Memorandum can be accessed  
directly at http://enforcement.trade.gov/

of the Issues and Decision  
Memorandum are identical in content.  

Scope of the Investigation  
The product covered by this  
investigation is biodiesel from  
Indonesia. Commerce did not receive  
any scope comments subsequent to the  
Preliminary Determination and,  
therefore, the scope has not been  
updated since the Preliminary  
Determination. See the scope in  
Appendix I to this notice.  

Period of Investigation  
The POI is January 1, 2016, through  
December 31, 2016.  

Verification  
As provided in section 782(i) of the  
Act, we conducted the cost and sales  
verifications of Wilmar in Medan,  
Indonesia, Singapore, and Pearland,  
Texas, in October and November, 2017.  
We used standard verification  
procedures, including an examination of  
relevant accounting and production  
records, and original source documents  
provided by the respondents.  

Analysis of Comments Received  
All issues raised in the case and  
rebuttal briefs by parties in this  
investigation are addressed in the Issues  
and Decision Memorandum, which is  
hereby adopted by this notice. A list of  
the issues raised is attached to this  
notice as Appendix II.  

Changes Since the Preliminary  
Determination  
Based on our analysis of the  
comments received and our findings at  
verification, we made certain changes to  
the margin calculations. For a  
discussion of these changes, see the  
Issues and Decision Memorandum.  

8 See Memorandum to the File, “Issues and  
Decision Memorandum for the Final Affirmative  
Determination in the Antidumping Duty  
Investigation of Biodiesel from Indonesia,” dated  
concurrently with, and hereby adopted by, this  
notice (Issues and Decision Memorandum).
All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated “all-others” rate for exporters and producers not individually investigated shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for individually investigated exporters and producers, excluding any margins that are zero or de minimis or any margins determined entirely under section 776 of the Act. In this investigation, Commerce assigned a rate based entirely on facts available to Musim Mas. Therefore, the only rate that is not zero, de minimis or based entirely on facts otherwise available is the rate calculated for Wilmar. Consequently, the rate calculated for Wilmar is also assigned as the rate for all other producers and exporters, as referenced in the “Final Determination Margins” section below.

Final Determination Margins

The weighted-average dumping margins are as follows:

<table>
<thead>
<tr>
<th>Exporter or producer</th>
<th>Estimated weighted-average dumping margin (percent)</th>

<td>Wilmar Trading PTE Ltd</td>
<td>92.52</td>

Disclosure

We will disclose the calculations performed within five days of any public announcement of this notice in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, Commerce will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of biodiesel from Indonesia, as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after October 31, 2017, the date of publication of the Preliminary Determination.

Furthuremore, pursuant to section 735(c)(1)(B)(iii) of the Act and 19 CFR 351.210(d), Commerce will instruct CBP to require a cash deposit for such entries of merchandise equal to the estimated weighted-average dumping margin or the estimated all-others rate, as follows: (1) The cash deposit rate for the respondents listed above will be equal to the respondent-specific estimated weighted-average dumping margin determined in this final determination; (2) if the exporter is not a respondent identified above, but the producer is, then the cash deposit rate will be equal to the respondent-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the all-others estimated weighted-average dumping margin.

These instructions will stay in effect until further notice.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the U.S. International Trade Commission (ITC) of the final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2)(B) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of biodiesel from Indonesia no later than 45 days after our final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all cash deposits will be refunded. If the ITC determines that such injury does exist, Commerce will issue an AD order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed above in the “Continuation of Suspension of Liquidation” section.

Notification Regarding Administrative Protective Orders

This notice will serve as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction or APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing this determination and notice in accordance with sections 735(d) and 777(i) of the Act and 19 CFR 351.210(e).

Prentiss Lee Smith,  
Deputy Assistant Secretary for Policy and Negotiations.

Appendix I—Scope of the Investigation

The product covered by this investigation is biodiesel, which is a fuel comprised of mono-alkyl esters of long chain fatty acids derived from vegetable oils or animal fats, including biologically-based waste oils or greases, and other biologically-based oil or fat sources. The investigation covers biodiesel in pure form (B100) as well as fuel mixtures containing at least 99 percent biodiesel by volume (B99). For fuel mixtures containing less than 99 percent biodiesel by volume, only the biodiesel component of the mixture is covered by the scope of the investigation. Biodiesel is generally produced to American Society for Testing and Materials International (ASTM) D6751 specifications, but it can also be made to other specifications. Biodiesel commonly has one of the following Chemical Abstracts Service (CAS) numbers, generally depending upon the feedstock used: 67784–80–9 (soybean oil methyl esters); 91051–34–2 (palm oil methyl esters); 9051–32–0 (palm kernel oil methyl esters); 73891–99–3 (rapeseed oil methyl esters); 61789–61–2 (tallow methyl esters); 68980–52–3 (vegetable oil methyl esters); 129828–16–6 (canola oil methyl esters); 67762–26–9 (unsaturated alkylcarboxylic acid methyl ester); or 68937–84–8 (fatty acids, C12–C18, methyl ester).

The B100 product subject to the investigation is currently classifiable under subheading 3826.00.1000 of the Harmonized Tariff Schedule of the United States (HTSUS), while the B99 product is currently classifiable under HTSUS subheading 3826.00.3000. Although the HTSUS subheadings, ASTM specifications, and CAS numbers are provided for convenience and customs purposes, the written description of the scope is dispositive.

Final Determination Margins

The product covered by this investigation is biodiesel from Argentina. Commerce did not receive any scope comments subsequent to the Preliminary Determination, and, therefore, the scope has not been updated since the Preliminary Determination. See the scope in Appendix I to this notice.

Period of Investigation

The POI is January 1, 2016, through December 31, 2016.

Verification

As provided in section 782(f) of the Tariff Act of 1930, as amended (the Act), we conducted the cost and sales verifications in Buenos Aires, Argentina, and Kansas City, Missouri, between October 30, 2017, and November 17, 2017. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by the respondents.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this investigation are addressed in the Issues and Decision Memorandum, which is hereby adopted by this notice. A list of the issues raised is attached to this notice as Appendix II.
