

gained through improved coordination among TVAP grantees, TVAP subrecipients, and other service providers.

The data collected and analyzed under this submission will help HHS better understand the type and extent of the relationships between the TVAP grantees, TVAP subrecipients, and other service providers operating in TVAP subrecipient areas. This information will enable HHS to understand the structure of the grantee/subrecipient

network and inform recommendations for more efficient network management and distribution of support.

Data will be collected through an electronic survey of fiscal year 2016 TVAP grantees and subrecipients. Key staff at grantee sites and subrecipient organizations will complete a self-administered online survey that will include questions for each respondent about services for which referrals are made, estimated costs of services, service coordination between grantees

or subrecipients, and type and strength of relationships between grantees and subrecipients. With this data, ICF will build a social/organizational network for HHS to depict how grantee and subrecipient organizations collaborate with one another through TVAP to better understand the existing network and identify potential opportunities for improving the efficiency of the network. ASPE anticipates completion of all data collection activities by October 2018.

**ANNUALIZED BURDEN HOUR TABLE**

Forms	Respondents	Number of respondents	Number of responses per respondents	Average burden per response	Total burden hours
TVAP Network Survey .....	TVAP grantees .....	3	1	45/60	2.25
TVAP Network Survey .....	TVAP subrecipients .....	253	1	45/60	189.75
<b>Total</b> .....	.....	<b>256</b>	.....	.....	<b>192</b>
