BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2017-0878; Airspace Docket No. 17-AEA-14]

Amendment of Class E Airspace; Moundsville, WV

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet or more above the surface at Marshall County Airport, Moundsville, WV, due to the FAA's reevaluation of the airspace. This amendment results in an increase from a 6.2-mile radius to a 7.3-mile radius of the airport. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations at this airport. This action also updates the geographic coordinates of this airport.

DATES: Effective 0901 UTC, May 24, 2018. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11B, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at http://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone (202) 267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11A at NARA, call (202)-741-6030, or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group,

Eastern Service Center, Federal Aviation Administration, 1701 Columbia Ave., College Park, GA 30337; telephone (404) 305-6364.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace at Marshall County Airport, Moundsville, WV, to support IFR operations at the airport.

History

The FAA published a notice of proposed rulemaking in the **Federal Register** for Docket No. FAA-2017-0878 (82 FR 55061, November 20, 2017) proposing to amend Class E airspace extending upward from 700 feet or more above the surface at Marshall County Airport, Moundsville, WV.

Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by

amending Class E airspace extending upward from 700 feet or more above the surface within the 7.3-mile (increased from a 6.2-mile) radius of Marshall County Airport, Moundsville, WV. This action also amends the 12-mile segment northeast of the airport extending from the 7.3-mile radius (increased from a 6.2-mile radius). This action is for continued safety and management of IFR operations.

The geographic coordinates of the airport are adjusted to coincide with the FAA's aeronautical database.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, effective September 15, 2017, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AEA WV E5 Moundsville, WV [Amended]

Marshall County Airport, WV
(Lat. 39°52'51" N, long. 80°44'09" W)

That airspace extending upward from 700 feet above the surface within a 7.3-mile radius of Marshall County Airport, and within 2 miles each side of a 051° bearing from the airport, extending from the 7.3-mile radius to 12 miles northeast of the airport.

Issued in College Park, Georgia, on February 28, 2018.

Ryan W. Almasy,

Manager, Operations Support Group, Eastern Service Center, Air Traffic Organization.

BILLING CODE 4910–13–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG–2018–0167]

Drawbridge Operation Regulation; Grassy Sound Channel, Middle Township NJ and Townsend Inlet, Avalon, NJ

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued temporary deviations from the operating schedules that govern the Grassy Sound Channel (Ocean Drive) Bridge across Grassy Sound Channel, mile 1.0, in Middle Township, NJ and the Townsend Inlet Bridge across Townsend Inlet, mile 0.6, at Avalon, NJ. These deviations are necessary to accommodate the annual Ocean Drive Marathon event. These deviations allows these bridges to remain in the closed-to-navigation position.

DATES: These deviations is effective from 9:15 a.m. to 2:30 p.m. on April 22, 2018.

ADDRESSES: The docket for these deviations, [USCG–2018–0167], is available at <http://www.regulations.gov>. Type the docket number in the “SEARCH” box and click “SEARCH”. Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on these temporary deviations, call or email Ms. Kashanda Booker, Bridge Administration Branch Fifth District, Coast Guard; telephone (757) 398–6227, email Kashanda.l.booker@uscg.mil.

SUPPLEMENTARY INFORMATION: The Cape May County Department of Public Works, owner of these drawbridges, has requested temporary deviations from the current operating schedules to accommodate the Ocean Drive Marathon event. The Grassy Sound Channel (Ocean Drive) Bridge across Grassy Sound Channel, mile 1.0, in Middle Township, NJ, is a bascule drawbridge with a vertical clearance in the closed position of 15 feet above mean high water. The Townsend Inlet Bridge across Townsend Inlet, mile 0.6, in Avalon, NJ, is a bascule drawbridge with a vertical clearance in the closed

position of 23 feet above mean high water.

The Grassy Sound Channel (Ocean Drive) Bridge operating regulations are set out in 33 CFR 117.721 and the Townsend Inlet Bridge operating regulations are set out in 33 CFR 117.757. Under these temporary deviations, these drawbridges will be allowed to remain in the closed-to-navigation position from 9:15 a.m. to 2:30 p.m. on Sunday, April 22, 2018, to accommodate the Ocean City Marathon event. Grassy Sound Channel and Townsend Inlet are used by a variety of vessels including recreational vessels, and small commercial vessels. The Coast Guard has carefully considered the nature and volume of vessel traffic on the waterway in publishing these temporary deviations.

Vessels able to pass through these bridges in the closed position may do so at any time. These bridges will be able to open for emergencies and there is no immediate alternate route for vessels unable to pass through these bridges in the closed position. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notice to Mariners of the change in operating schedule for these bridges so that vessels can arrange their transits to minimize any impacts caused by this temporary deviation.

In accordance with 33 CFR 117.35(e), these drawbridges must return to the regular operating schedules immediately at the end of the effective period of these temporary deviations. These deviations from the operating regulations are authorized under 33 CFR 117.35.

Dated: March 1, 2018.

Hal R. Pitts,

Bridge Program Manager, Fifth Coast Guard District.
