

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by removing Amendment 39–17594 (78 FR 58872, September 25, 2013), and adding the following new AD:

2018–05–08 GA 8 Airvan (Pty) Ltd:

Amendment 39–19217; Docket No. FAA–2017–1166; Product Identifier 2017–CE–042–AD.

(a) Effective Date

This airworthiness directive (AD) becomes effective April 12, 2018.

(b) Affected ADs

This AD replaces AD 2013–19–12, Amendment 39–17594 (78 FR 58872, September 25, 2013) (“AD 2013–19–12”).

(c) Applicability

This AD applies to the following GA 8 Airvan (Pty) Ltd airplane models and serial numbers (S/Ns) presented in paragraphs (c)(1) and (c)(2) that are certificated in any category:

(1) Group 1 Airplanes:

(i) *Model GA8*: S/N GA8–02–012 and S/Ns 128 through 205; and

(ii) *Model GA8–TC320*: S/Ns GA8–TC 320–02–016, GA8–TC 320–03–025, GA8–TC 320–09–120, and S/Ns 129 through 205.

(2) Group 2 Airplanes:

Note 1 to paragraph (c) of this AD: The last three digits (third tier designation) of the affected airplane model S/Ns are sequential regardless of the model designation (first tier designation) or the year produced (second tier designation).

(d) Subject

Air Transport Association of America (ATA) Code 28: Fuel System.

(e) Reason

This AD was prompted by mandatory continuing airworthiness information (MCAI) issued by the aviation authority of another country to identify and address an unsafe condition on an aviation product. The MCAI describes the unsafe condition as the fuel system integral sump tank not meeting FAA regulations. We are issuing this AD to prevent the accumulation of flammable fluids or vapors, which could lead to a flammability issue.

(f) Actions and Compliance

Unless already done, do the following actions:

(1) For all affected Group 1 airplanes:

Within the next 100 hours time-in-service (TIS) after April 12, 2018 (the effective date of this AD) or within the next 3 months after April 12, 2018 (the effective date of this AD), whichever occurs first, modify the airplane following Part 1 of GippsAero Service Bulletin SB–GA8–2012–96, Issue 6, dated July 21, 2016. If the airplane was previously

affected under AD 2013–19–12 and compliance with that AD has already been done, this AD allows credit for doing this modification following Part 1 of GippsAero Mandatory Service Bulletin SB–GA8–2012–96, Issue 4, dated August 12, 2013.

(2) For affected Group 1 airplanes that are equipped with a cargo pod part number GA8–255004–017 or GA8–255004–019:

If the airplane was previously affected under AD 2013–19–12 and compliance with that AD has already been done, this AD allows credit for doing this modification following Part 2 of GippsAero Mandatory Service Bulletin SB–GA8–2012–96, Issue 4, dated August 12, 2013.

(3) For all affected Group 2 airplanes:

Within the next 100 hours TIS after April 12, 2018 (the effective date of this AD) or within 3 months after April 12, 2018 (the effective date of this AD), whichever occurs first, modify the airplane following Part 3 of GippsAero Service Bulletin SB–GA8–2012–96, Issue 6, dated July 21, 2016.

(g) Credit for Actions Done Following Previous Service Information

This AD allows credit for airplanes that were previously affected by AD 2013–19–12 and the actions required in paragraphs (f)(1) and (f)(2) of this AD were previously done following Part 1 and Part 2 of GippsAero Mandatory Service Bulletin SB–GA8–2012–96, Issue 4, dated August 12, 2013.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it supports the removal of Class E airspace at Centerville, MD, due to the closing of the Maryland State Police Trooper 6 Heliport.

History

The FAA published a notice of proposed rulemaking (NPRM) in the *Federal Register* (82 FR 45747, October 2, 2017) for Docket No. FAA-2017-0822 proposing to remove Class E airspace extending upward from 700 feet above

the surface at Maryland State Police Trooper 6 Heliport, Centerville, MD, due to the closing of the heliport.

Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 removes Class E airspace extending upward from 700 feet above the surface at Maryland State Police Trooper 6 Heliport, Centerville, MD, due to the closing of the heliport. The heliport has moved to a new location. Therefore, the airspace is no longer necessary at this site.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866, (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979) and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
