

yield reliably actionable results, such as monitoring trends over time or documenting program performance.

Purpose: Collecting this information allows us to register participants for NARA's public, education, and training programs throughout the agency's locations, and to collect and process credit card payments. The information is also used to develop mailing lists for distribution of education-related information and special NARA training events, based on the request or expressed interest of the person registering. Advance registration allows NARA offices to schedule the tours, training, and events to maximize the participants' time and to accommodate the participants in the space. The information collected from registrants will help ensure that users have an effective, efficient, and satisfying experience with our programs, in compliance with E.O. 12862. Without the ability to collect this information, NARA would not be able to effectively organize events, resulting in possibly turning away members of the public from events that might be overbooked.

Conditions: We will submit a specific information collection for approval under this generic clearance only if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and is low-cost for both the respondents and the Federal Government;

- The collection is non-controversial and does not raise issues of concern to other Federal agencies;

- Personally identifiable information (PII) is collected only to the extent necessary and is retained only for the period of time required by NARA records schedules;

- Information gathered will be used only internally for program management purposes and is not intended for release outside of the agency;

- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

As a general matter, information collections under this generic collection request will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual

behavior and attitudes, religious beliefs, and other matters that are commonly considered private. In this notice, NARA solicits comments concerning the following information collection:

Title: Generic Clearance for NARA Public and Education Program Registration.

OMB number: 3095-00XX.

Agency form numbers: N/A.

Type of review: Regular.

Projected affected public: Individuals or households, business or other for-profit, not-for-profit institutions, schools, Federal, state, local, or tribal government organizations.

Projected average estimates for the next three years:

Average expected annual number of forms: 6.

Average projected number of respondents per form: 1.

Estimated number of respondents in total: 1,500.

Estimated time per response: 10 minutes.

NATIONAL SCIENCE FOUNDATION

Proposal Review; Notice of Meetings

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation (NSF) announces its intent to hold proposal review meetings throughout the year. The purpose of these meetings is to provide advice and recommendations concerning proposals submitted to the NSF for financial support. The agenda for each of these meetings is to review and evaluate proposals as part of the selection process for awards. The review and evaluation may also include assessment of the progress of awarded proposals. These meetings will primarily take place at NSF's headquarters, 2415 Eisenhower Avenue, Alexandria, VA 22314.

These meetings will be closed to the public. The proposals being reviewed include information of a proprietary or confidential nature, including technical
