**29 CFR Parts 4022 and 4044**

**Allocation of Assets in Single-Employer Plans; Benefits Payable in Terminated Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits**

**AGENCY:** Pension Benefit Guaranty Corporation.

**ACTION:** Final rule.

**SUMMARY:** This final rule amends the Pension Benefit Guaranty Corporation’s regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans to prescribe interest assumptions under the benefit payments regulation for valuation dates in April 2018 and interest assumptions under the asset allocation regulation for valuation dates in the second quarter of 2018. The interest assumptions are used for valuing and paying benefits under terminating single-employer plans covered by the pension insurance system administered by PBGC.

**DATES:** Effective April 1, 2018.

**FOR FURTHER INFORMATION CONTACT:** Hilary Duke (duke.hilary@PBGC.gov), Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation, 1200 K Street NW, Washington, DC 20005, 202–326–4400, ext. 3839. (TTY users may call the Federal relay service toll free at 1–800–877–8339 and ask to be connected to 202–326–4400, ext. 3839.)

The interest assumptions in appendix B to part 4044 are used to value benefits for allocation purposes under ERISA section 4044. PBGC uses the interest assumptions in appendix B to part 4022 to determine whether a benefit is payable as a lump sum and to determine the amount to pay. Appendix C to part 4022 contains interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using PBGC’s historical methodology. Currently, the rates in appendices B and C of the benefit payment regulation are the same.

The interest assumptions are intended to reflect current conditions in the financial and annuity markets. Assumptions under the asset allocation regulation are updated quarterly; assumptions under the benefit payments regulation are updated monthly. This final rule updates the benefit payments interest assumptions for April 2018 and

**Terminated Single-Employer Plans; Benefits Payable in Terminated Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits**

The interest assumptions are intended to reflect current conditions in the financial and annuity markets. Assumptions under the asset allocation regulation are updated quarterly; assumptions under the benefit payments regulation are updated monthly. This final rule updates the benefit payments interest assumptions for April 2018 and
updates the asset allocation interest assumptions for the second quarter (April through June) of 2018.

The second quarter 2018 interest assumptions under the allocation regulation will be 2.27 percent for the first 20 years following the valuation date and 2.59 percent thereafter. In comparison with the interest assumptions in effect for the first quarter of 2018, these interest assumptions represent no change in the select period (the period during which the select rate (the initial rate) applies), a decrease of 0.12 percent in the select rate, and a decrease of 0.01 percent in the ultimate rate (the final rate).

The April 2018 interest assumptions under the benefit payments regulation will be 1.00 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit’s placement in pay status. In comparison with the interest assumptions in effect for March 2018, these interest assumptions represent a 0.25 percent increase in the immediate rate and no changes in i1, i2, or i3.

PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect current market conditions as accurately as possible.

Because of the need to provide immediate guidance for the valuation and payment of benefits under plans with valuation dates during April 2018, PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication. PBGC has determined that this action is not a “significant regulatory action” under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

Coast Guard

33 CFR Part 117

[Docket No. USCG–2018–0033]

Drawbridge Operation Regulation; New Jersey Intracoastal Waterway, Beach Thorofare, Margate City, NJ

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has modified a temporary deviation from the operating schedule that governs the Smith Point Bridge across Narrow Bay, mile 6.1, at Suffolk County, New York. This deviation is necessary in order to facilitate a Triathlon Event and allows the bridge to remain in the closed position for two hours.

DATES: This deviation is effective from 7 a.m. to 9 a.m. on August 5, 2018.

ADDRESSES: The docket for this deviation, USCG–2018–0033, is available at http://www.regulations.gov. Type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Stephanie Lopez, Bridge Management Specialist, First District Bridge Branch, U.S. Coast Guard; telephone 212–514–4335, email Stephanie.E.Lopez@uscg.mil.

SUPPLEMENTARY INFORMATION: Event Power requested and the bridge owner, Suffolk County DPW, concurred with this temporary deviation from the normal operating schedule to facilitate a Triathlon Event.

The Smith Point Bridge across Narrow Bay, mile 6.1, has a vertical clearance of 18 feet at mean high water and 19 feet at mean low water in the closed position. The existing drawbridge operating regulation is listed at 33 CFR 117.799(d).

The temporary deviation will allow the Smith Point Bridge to remain closed from 7 a.m. to 9 a.m. on August 5, 2018. Narrow Bay is transited by seasonal recreational vessels. Coordination with Coast Guard Sector Long Island Sound has indicated no mariner objections to the proposed short-term closure of the draw.

Vessels that can pass under the bridge without an opening may do so at all times. The bridge will be able to open for emergencies. There is no alternate route for vessels to pass.

The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 6, 2018.

Supervisory Bridge Management Specialist,
First Coast Guard District.
