

avoid the expense of instituting a tracking system, and undergoing an audit. On February 22, 2018, the Commission adopted a Report and Order, FCC 18–21 (*2018 Payphone Order*), that: (1) Eliminated the payphone call tracking system audit and associated reporting requirements; (2) permitted a company official, including but no longer limited to, the chief financial officer (CFO), to certify that a Completing Carrier's quarterly compensation payments to PSPs are accurate and complete; and (3) eliminated expired interim and intermediate per-payphone compensation rules that no longer apply to any entity. We believe that the revisions adopted in the *2018 Payphone Order* significantly decrease the paperwork burden on carriers.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: The FCC adopted the Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions Report and Order, FCC 14–50, on May 15, 2014,

published at 79 FR 48442 (Aug. 15, 2014). The Commission seeks to extend for a period of three years from the Office of Management and Budget (OMB) some of the information collection requirements contained in FCC 14–50. The Commission will use the information to ensure compliance with required filings of notifications, certifications, license renewals, license cancellations, and license modifications. Also, such information will be used to minimize interference and to determine compliance with Commission's rules.

The following is a description of the information collection requirements approved under this collection:

Section 27.14(k) requires 600 MHz licensees to demonstrate compliance with performance requirements by filing a construction notification with the Commission, within 15 days of the applicable benchmark.

Section 27.14(t)(6) requires 600 MHz licensees to make a renewal showing as a condition of each renewal. The showing must include a detailed description of the applicant's provision of service during the entire license period and address: (i) The level and quality of service provided by the applicant (including the population served, the area served, the number of subscribers, the services offered); (ii) the date service commenced, whether service was ever interrupted, and the duration of any interruption or outage; (iii) the extent to which service is provided to rural areas; (iv) the extent to which service is provided to qualifying tribal land as defined in 47 CFR 1.2110(f)(3)(i); and (v) any other factors associated with the level of service to the public.

Section 27.17(c) requires 600 MHz licensees to notify the Commission within 10 days of discontinuance if they permanently discontinue service by filing FCC Form 601 or 605 and requesting license cancellation.

Section 27.1321(b) previously designated as 27.19(b) requires 600 MHz licensees with base and fixed stations in the 600 MHz downlink band within 25 kilometers of Very Long Baseline Array (VLBA) observatories to coordinate with the National Science Foundation (NSF) prior to commencing operations.

Section 27.1321(c) previously designated as 27.19(c) requires 600 MHz licensees that intend to operate base and fixed stations in the 600 MHz downlink band in locations near the Radio Astronomy Observatory site located in Green Bank, Pocahontas County, West Virginia, or near the Arecibo Observatory in Puerto Rico, to comply with the provisions in 47 CFR 1.924.

Section 74.602(h)(5)(ii) requires 600 MHz licensees to notify the licensee of a studio-transmitter link (TV STL), TV relay station, or TV translator relay station of their intent to commence wireless operations and the likelihood of harmful interference from the TV STL, TV relay station, or TV translator relay station to those operations within the wireless licensee's licensed geographic service area. The notification is to be in the form of a letter, via certified mail, return receipt requested and must be sent not less than 30 days in advance of approximate date of commencement of operations.

Section 74.602(h)(5)(iii) requires all TV STL, TV relay station and TV translator relay station licensees to modify or cancel their authorizations and vacate the 600 MHz band no later than the end of the post-auction transition period as defined in 47 CFR 27.4.

These rules which contain information collection requirements are designed to provide for flexible use of this spectrum by allowing licensees to choose their type of service offerings, to encourage innovation and investment in mobile broadband use in this spectrum, and to provide a stable regulatory environment in which broadband deployment would be able to develop through the application of standard terrestrial wireless rules. Without this information, the Commission would not be able to carry out its statutory responsibilities.
