SUPPLEMENTARY INFORMATION:

I. Background and Purpose

On February 8, 2018, we published a request for comments entitled, "Regulated Navigation Areas; Harbor

Entrances Along the Coast of Northern California" at 83 FR 5592. The comment period ended on March 12, 2018. The Coast Guard did not receive any comments on the original request for comments and has decided to re-open the comment period to provide additional opportunity for informed public comment. The Coast Guard will consider any comments that are received by the agency after the original March 12th closing date, but before the publication of this notice reopening the comment period.

II. Information Requested

As discussed in the original published request for comment, the Coast Guard seeks comments and information for agency consideration and to inform any future establishment of RNAs that would create bar closure conditions as well as regulate vessel bar transits during hazardous bar conditions for all recreational, commercial fishing, and passenger vessels. The Coast Guard requests and encourages open discussion and candid feedback on the possibility of establishing RNAs for Crescent City, Humboldt Bay, Noyo River, and Morro Bay harbor bar entrances. The following considerations warrant special attention:

- Weather and sea conditions at the bars that the maritime community considers a risk to safe navigation for recreational vessels, passenger vessels, fishing vessels and deep draft vessel;
- The economic impact of bar closures and restrictions on the maritime community; and
- Preferred methods of notification for bar restrictions and closures.

III. Public Participation and Request for Comments

We encourage you to submit comments through the Federal portal at <http://www.regulations.gov>. If your material cannot be submitted using <http://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions. In your submission, please include the docket number for this notice of inquiry and provide a reason for each suggestion or recommendation.

We accept anonymous comments. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided. For more about privacy and the docket, visit <http://www.regulations.gov/privacyNotice>.

Both trails will require trail construction activities to accommodate bicycles and are therefore considered new trails that will be opened to bicycles. National Park Service regulations require promulgation of a special regulation to designate new trails for bicycle use off park roads and outside developed areas.

DATES: Comments on the proposed rule must be received by 11:59 p.m. EST on May 15, 2018.

SUPPLEMENTARY INFORMATION:

Background

Pea Ridge National Military Park (the park), established in 1956 and opened to the public in 1963, preserves and commemorates the site of the March 1862 Civil War battle that helped Union forces maintain physical and political control of the State of Missouri. Administered by the National Park Service (NPS), the 4,300-acre battlefield is situated in the foothills of the Ozark Mountains 10 miles north of Rogers, Arkansas, just off of U.S. Highway 62. The park is divided into two sections: The main portion of the park is located north of U.S. Highway 62 and encompasses a majority of the historic battleground. The main portion consists of a dedicated series of soft surface trails for equestrians and pedestrians, as well as the tour road, which bicyclists share with vehicle users. The second, smaller portion is located to the south of U.S. Highway 62 along the bluffs of Little Sugar Creek and contains the Federal Trenches of the Union troops. This non-contiguous section is currently accessible from a small parking lot along Sugar Creek Road, which intersects with U.S. Highway 62, with a trail leading to the trenches.

The park contains a portion of the northern route of the Trail of Tears that is one of the few places the Trail of Tears passes through Arkansas. Eleven Cherokee Removal contingents used this route from 1837 to 1839. Through the park, the Trail of Tears generally followed the route of Telegraph Road, which is eligible for the National Register of Historic Places.

Road and Trail System in the Park

The park contains an existing road and trail system (including the Federal Trenches trail) that provides pedestrians, hikers, bicyclists, and equestrians with interpretive and recreational opportunities. This system consists of a total of 32 miles of trail, including 7.6 miles of asphalt trail, 13.9 miles of off-road hiking trail, and 10.8 miles of horse trail. Bicycles are allowed on roads but not on trails within the park.

The area surrounding the park—including local communities such as

Pea Ridge, Garfield, Bentonville, Rogers, Springdale, and Fayetteville—has experienced dynamic population growth in recent years. Increased visitation to the park has created a need to improve the existing road and trail system to better accommodate travel through the park by various methods (e.g., automobile, pedestrian, equestrian, bicycle). In addition to enhancing interpretive and recreational opportunities, an improved road and trail system will generate operational efficiencies. There are opportunities to combine trails or locate trails adjacent to other trail types or facilities (e.g., water, restrooms, phones) to maximize the efficiency of performing park maintenance. By removing duplicative trails and infrastructure, the NPS can reduce overall maintenance costs.

Trail Plan/Environmental Assessment

In November 2017, the NPS published the Pea Ridge National Military Park Trail Master Plan/Environmental Assessment (EA). The EA evaluates two action alternatives that are designed to improve visitor access to the park's historical and interpretive sites while avoiding or minimizing impacts to these sites by consolidating and restructuring the existing trail network. These alternatives also seek to improve multi-modal trail connections within the park while linking to a regional trail network outside of the park. Under both action alternatives, the NPS would expand and enhance opportunities for pedestrian trail interpretation, construct additional trailheads, modify trail loops for simplicity and interpretive value, construct additional ADA-accessible trails, install signage for the Trail of Tears, improve multi-use trails, and improve equestrian trails to avoid erosion-prone areas. These actions will meet the increasing recreational needs of the area while protecting the cultural and natural resources within the park.

The EA identifies one of the action alternatives as the NPS preferred alternative. This alternative would allow bicycle use on two proposed multi-use trails that would require trail construction activities. The first would be a 0.55-mile trail from U.S. Highway 62 to the visitor center. The second would be a 1.17-mile trail from Arkansas Highway 72 to the Sugar Creek Greenway on the western edge of the park. Bicycles would also be allowed on Ford Road, which is closed to motor vehicle use by the public, but open to motor vehicle use for administrative purposes. Bicycles would also be allowed on segments of the Tour Road, which is paved and open to motor vehicle use by the public.
