SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-82868; File No. SR-MIAX-2018-08]

Self-Regulatory Organizations; Miami International Securities Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule

March 13, 2018.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”) ¹ and Rule 19b-4 thereunder,² notice is hereby given that on February 28, 2018, Miami International Securities Exchange LLC (“MIAX Options” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Options Fee Schedule (the “Fee Schedule”).

The text of the proposed rule change is available on the Exchange’s website at <http://www.miaxoptions.com/rule-filings>, at MIAX’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these

statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Fee Schedule to modify certain aspects of the following fees that apply to MIAX Options Market Makers: (i) The Monthly Trading Permit fees; and (ii) the MEI Port fees.

The Exchange issues Trading Permits that confer the ability to transact on the Exchange.³ Currently, the Exchange assesses the following monthly fees for MIAX Options Market Maker Trading Permits: (i) \$7,000 for Market Maker Assignments in up to 10 option classes or up to 20% of option classes by volume; (ii) \$12,000 for Market Maker Assignments in up to 40 option classes or up to 35% of option classes by volume; (iii) \$17,000 for Market Maker Assignments in up to 100 option classes or up to 50% of option classes by volume; and (iv) \$22,000.00 for Market Maker Assignments in over 100 option classes or over 50% of option classes by volume up to all option classes listed on MIAX Options.⁴ For the calculation of these monthly Trading Permit fees, the number of classes is defined as the greatest number of classes the Market Maker was assigned to quote in on any given day within the calendar month and the class volume percentage is based on the total national average daily volume in classes listed on MIAX Options in the prior calendar quarter.⁵ Newly listed option classes are excluded from the calculation of the monthly Market Maker Trading Permit fee until the calendar quarter following

³ There is no limit on the number of Trading Permits that may be issued by the Exchange; however, the Exchange has the authority to limit or decrease the number of Trading Permits it has determined to issue provided it complies with the provisions set forth in Rule 200(a) and Section 6(c)(4) of the Exchange Act. See 15 U.S.C. 78(f)(c)(4). For a complete description of MIAX Options Trading Permits, see MIAX Rule 200.

⁴ See the Fee Schedule, Section 3(b).

⁵ The Exchange will use the following formula to calculate the percentage of total national average daily volume that the Market Maker assignment is for purposes of the Market Maker trading permit fee for a given month:

Market Maker assignment percentage of national average daily volume = [total volume during the prior calendar quarter in a class in which the Market Maker was assigned]/[total national volume in classes listed on MIAX Options in the prior calendar quarter].

their listing, at which time the newly listed option classes will be included in both the per class count and the percentage of total national average daily volume.

The Exchange assesses Market Makers the monthly Trading Permit fee based on the greatest number of classes listed on MIAX Options that the Market Maker was assigned to quote on any given day within a calendar month and the applicable fee rate that is the lesser of either the per class basis or percentage of total national average daily volume measurement. Members receiving Trading Permits during the month will be assessed Trading Permit fees according to this schedule, except that the calculation of the Trading Permit fee for the first month in which the Trading Permit is issued will be pro-rated based on the number of trading days occurring after the date on which the Trading Permit was in effect during that first month divided by the total number of trading days in such month multiplied by the monthly rate.

The Exchange now proposes to modify its Trading Permit fees that apply to the Market Makers who fall within the following Trading Permit fee levels, which represent the 3rd and 4th levels of the fee table: (i) Market Maker Assignments in up to 100 option classes or up to 50% of option classes by volume; and (ii) Market Maker Assignments in over 100 option classes or over 50% of option classes by volume up to all option classes listed on MIAX Options. Specifically, the Exchange proposes for these Monthly Trading Permit Fee levels, if the Market Maker’s total monthly executed volume during the relevant month is less than 0.075% of the total monthly executed volume reported by OCC in the market maker account type for MIAX-listed option classes for that month, then the fee will be \$15,500 instead of the fee otherwise applicable to such level.

The purpose of this proposed change is to provide a lower fixed cost to those Market Makers who are willing to quote the entire Exchange market (or substantial amount of the Exchange market), as objectively measured by either number of classes assigned or national ADV, but who do not otherwise execute a significant amount of volume on the Exchange. The Exchange believes that, by offering lower fixed costs to Market Makers that execute less volume, the Exchange will retain and attract smaller-scale Market Makers, which are an integral component of the option marketplace, but have been decreasing in number in recent years, due to industry consolidation and lower market maker profitability. Since these
