

verification, which will consist of copies of purchase invoices and a detailed description of the occupant protection system in place on the vehicle at the time it was delivered to the RI. The RI must also provide a similarly detailed description of the occupant protection system in place after the vehicle is altered, including photographs of all required labeling. The descriptions must include assembly diagrams and associated part numbers for all components that were removed from and installed on the vehicle, and descriptions of how the programming changes were completed and how compliance was verified. Additionally, photographs (*e.g.*, screenshots) or report printouts, as practicable, must be submitted as proof that the reprogramming was carried out successfully. Proof in the form of test results that, as altered, the vehicle conforms to child protection requirements, passenger out of position, unbelted occupant, and telltale requirements of FMVSS No. 208 after the replacement parts and software updates are installed.

FMVSS No. 225, Child Restraint Anchorage Systems; FNA commented that while G&K correctly summarized that they will need to add the appropriate child restraint anchorage, this summary unduly minimizes the expense and potential difficulties of said installation. Specifically, FNA states that installation will require replacement of upholstery, and that the screw holding the anchorage must be tightened to a precisely-defined torque.

G&K responded by asserting that they have the necessary experience to install such an anchorage in a vehicle.

NHTSA has decided that each conformity package must include photographic evidence that the required anchorage has been installed in each imported vehicle, and include a description of how the RI accomplished proper torquing of the anchorage screw.

FMVSS No. 301 Fuel System Integrity; FNA stated that the modifications to the fuel system that G&K identified in their petition may overlook reinforcements that have been provided for U.S.-certified vehicles to limit the movement of the gearbox in rear-end collisions as a means of preventing its impact with the fuel tank.

G&K responded by reiterating that they will inspect each individual vehicle for compliance with this standard, and that they will install additional brackets behind the gearbox similar to those found in U.S.-certified vehicles as necessary.

NHTSA has decided that each conformity package must include a detailed description of all modifications made to achieve conformity with this standard and that all newly installed and replaced components must be U.S.-conforming model Ferrari replacement components, provided that the non-U.S. vehicles were manufactured with mounting anchorages that are identical to those on the U.S.-certified vehicles. This description must include part number verification for each part replaced, copies of purchase invoices, and photographic evidence of the modifications made to achieve conformity.

In addition to the information specified above, each conformity package must include evidence showing how the RI verified that the changes they made in loading or reprogramming vehicle software to achieve conformity with each separate FMVSS, did not also cause the vehicle to fall out of compliance with any other applicable FMVSS.

Decision

Accordingly, on the basis of the foregoing, NHTSA hereby decides that MY 2013–2014 Ferrari F12 Berlinetta passenger cars that were not originally manufactured to comply with all applicable FMVSS, are substantially similar to MY 2013–2014 Ferrari F12 Berlinetta passenger cars manufactured for importation into and/or sale in the United States, and certified under 49 U.S.C. 30115, and are capable of being readily altered to conform to all applicable Federal Motor Vehicle Safety Standards.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS–7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP–594 is the vehicle eligibility number assigned to vehicles admissible under this notice of final decision.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8).

Title: Appraisal Management Companies.

OMB Control No.: 1557-0324.

Affected Public: Business or other for-profit.

Type of Review: Regular review.

Abstract: The OCC, Board of Governors of the Federal Reserve System (FRB), Federal Deposit Insurance Corporation (FDIC), National Credit Union Administration (NCUA), Consumer Financial Protection Bureau (Bureau), and Federal Housing Finance Agency (FHFA) (Agencies) have rules implementing the minimum requirements in section 1473 of the Dodd-Frank Wall Street Reform and Consumer Protection Act to be applied by States in the registration and supervision of appraisal management companies (AMCs). The Agencies have also implemented the requirement in section 1473 of the Dodd-Frank Act for States to report to the Appraisal Subcommittee of the Federal Financial Institutions Examination Council (FFIEC) the information required by the Appraisal Subcommittee (ASC) to administer the new national registry of appraisal management companies (AMC National Registry or Registry).

State Recordkeeping Requirements

States seeking to register AMCs must have an AMC registration and supervision program. Section 34.213(a) requires each participating State to establish and maintain within its appraiser certifying and licensing agency a registration and supervision program with the legal authority and mechanisms to: (i) Review and approve or deny an application for initial registration; (ii) periodically review and renew, or deny renewal of, an AMC's registration; (iii) examine an AMC's books and records and require the submission of reports, information, and documents; (iv) verify an AMC's panel members' certifications or licenses; (v) investigate and assess potential law, regulation, or order violations; (vi) discipline, suspend, terminate, or deny registration renewals of, AMCs that violate laws, regulations, or orders; and (vii) report violations of appraisal-related laws, regulations, or orders, and disciplinary and enforcement actions to the ASC.

Section 34.213(b) requires each participating State to impose

requirements on AMCs not owned and controlled by an insured depository institution and regulated by a Federal financial institution's regulatory agency to: (i) Register with and be subject to supervision by a State appraiser certifying and licensing agency in each State in which the AMC operates; (ii) use only State-certified or State-licensed appraisers for Federally regulated transactions in conformity with any Federally regulated transaction regulations; (iii) establish and comply with processes and controls reasonably designed to ensure that the AMC, in engaging an appraiser, selects an appraiser who is independent of the transaction and who has the requisite education, expertise, and experience necessary to competently complete the appraisal assignment for the particular market and property type; (iv) direct the appraiser to perform the assignment in accordance with Uniform Standards of Professional Appraisal Practices (USPAP); and (v) establish and comply with processes and controls reasonably designed to ensure that the AMC conducts its appraisal management services in accordance with section 129E(a)-(i) of the Truth in Lending Act.

State Reporting Burden

Section 34.216 requires that each State electing to register AMCs for purposes of permitting AMCs to provide appraisal management services relating to covered transactions in the State must submit to the ASC the information required to be submitted under subpart H to part 34 and any additional information required by the ASC concerning AMCs.

AMC Reporting Requirements

Section 34.215(c) requires that a Federally regulated AMC must report to the State or States in which it operates the information required to be submitted by the State pursuant to the ASC's policies, including: (i) Information regarding the determination of the AMC National Registry fee; and (ii) the information listed in § 34.214.

Section 34.214 provides that an AMC may not be registered by a State or included on the AMC National Registry if such company is owned, directly or indirectly, by any person who has had an appraiser license or certificate refused, denied, cancelled, surrendered in lieu of revocation, or revoked in any State. Each person that owns more than 10 percent of an AMC shall submit to a background investigation carried out by the State appraiser certifying and licensing agency. While § 34.214 does not authorize States to conduct background investigations of Federally

regulated AMCs, it would allow a State to do so if the Federally regulated AMC chooses to register voluntarily with the State.

AMC Recordkeeping Requirements

Section 34.212(b) provides that an appraiser in an AMC's network or panel is deemed to remain on the network or panel until: (i) The AMC sends a written notice to the appraiser removing the appraiser with an explanation; or (ii) receives a written notice from the appraiser asking to be removed or a notice of the death or incapacity of the appraiser. The AMC would retain these notices in its files.

Estimated Number of Respondents: 200 AMCs; 55 States and Territories.

Total Estimated Annual Burden: 421. Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:
