

Abstract: FSIS, by delegation (7 CFR 2.18, 2.53), exercises the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting renewal of the approved information collection regarding its Consumer Complaint Monitoring System (CCMS) web portal. FSIS is discontinuing use of the electronic Food Safety Mobile questionnaire that was approved under this collection. Therefore, the Agency has reduced the burden estimate by 13 hours for the Food Safety Mobile questionnaire. Additionally, FSIS has reduced the burden hours for the CCMS web portal by 75 hours due to updated information about consumer complaints. The approval for this information collection will expire on August 31, 2018.

FSIS tracks consumer complaints about meat, poultry, and egg products. Consumer complaints are usually filed when food makes a consumer sick, causes an allergic reaction, is not properly labeled (misbranded), or contains a foreign object. FSIS uses a web portal to allow consumers to electronically file a complaint with the Agency about a meat, poultry, or egg product. FSIS uses this information to look for trends that will enhance the Agency's food safety efforts.

FSIS has made the following estimates based upon an information collection assessment.

Estimate of Burden: The public reporting burden for this collection of information is estimated to average 15 minutes per response.

Respondents: Consumers and organizations.

Estimated Number of Respondents: The CCMS web portal will have approximately 700 respondents.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: The total annual burden time is estimated to be about 750 hours for respondents using CCMS web portal. Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250-3700; (202) 720-5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
