represent a separate population. As genetic analyses are completed and more is known about the species’ gene flow and genetic structure, it may be necessary to adjust or modify unit boundaries. All stream reaches within the species’ historical range that are not specifically identified in the following management units, should not immediately be excluded from recovery activities if new information indicates these areas are necessary to prevent local extirpation or to facilitate recovery.

The management units are as follows: Management Unit 1: The boundaries of this management unit correspond to critical habitat units 1 (Bunches Creek) and 2 (Calf Pen Fork), which are located entirely within the Daniel Boone National Forest (DBNF).

Management Unit 2: The boundaries of this management unit correspond to critical habitat units 7 (Kirby Fork) and 8 (Laurel Fork). The majority of this management unit (73 percent) is located within the DBNF.

Management Unit 3: The boundaries of this management unit correspond to critical habitat unit 6 (Cougur Fork). The majority of this management unit (69 percent) is located within the DBNF.

Management Unit 4: The boundaries of this management unit correspond to critical habitat units 4 (Barren Fork) and 5 (Indian Creek), which are located entirely within the DBNF.

Management Unit 5: The boundaries of this management unit correspond to critical habitat units 9 (Laurel Creek), 10 (Elisha Branch), and 11 (Jenneys Branch), and a 7.4-km (4.6-mi) segment of Bridge Fork. The majority of this management unit (96 percent) is located within the DBNF.

Management Unit 6: This management unit corresponds to critical habitat units 13 (Jellico Creek), 14 (Rock Creek), and 15 (Capuchin Creek). A portion of this management unit (29 percent) is located within the DBNF.

Management Unit 7: The boundaries of this management unit correspond to critical habitat unit 3 (Youngs Creek). This unit is located almost entirely on private land, except for any small amount that is publicly owned in the form of bridge crossings and road easements.

Management Unit 8: The boundaries of this management unit correspond to critical habitat unit 12 (Wolf Creek). This unit is located almost entirely on private land, except for any small amount that is publicly owned in the form of bridge crossings and road easements.

Management Unit 9: This management unit does not correspond to a critical habitat unit because the species was thought to be extirpated from Laurel Fork when the critical habitat rule was published in 2012. The species was rediscovered in Laurel Fork (of Clear Fork) by the Kentucky State Nature Preserves Commission (KSNPC) and the Service in 2014 (Service unpublished data). This management unit is comprised of an approximate 16.7-km (10.4-mi) reach of Laurel Fork that extends from the mouth of Laurel Fork in Campbell County, Tennessee, upstream to Laurel Fork–Buffalo Creek Road in Whitley County, Kentucky. No collection records exist for the Tennessee portion of this management unit (Campbell and Claiborne Counties); however, recent collection records exist for areas near the Kentucky-Tennessee border, and suitable habitat is present throughout the Tennessee portion of this unit. This unit is located primarily on private property, except for a 6.6-km (4.1-mi) reach on the west side of Laurel Fork in Archer-Benge State Nature Preserve, a 7.5-km² (1,864-ac) tract in Whitley County, Kentucky, and any small amount that is publicly owned in the form of bridge crossings and road easements.

**Recovery Criteria**

The Cumberland darter should be considered for removal from the List of Endangered and Threatened Wildlife when:

1. Management Units 1–9 or Management Units 1–7, 9, and one additional stream within the species’ historical range (e.g., Sanders Creek) are determined to be protected from present and foreseeable habitat threats through recovery efforts like land acquisition, conservation agreements and easements, stewardship, outreach, adequate regulatory oversight and enforcement, or other similar actions;
2. Instream habitat quality (substrate, flows, water quality) in these management units is sufficient, as defined by recovery tasks 3.1 and 3.2, to meet the species’ life history requirements; and
3. A viable population (as defined in 3(f) of the Endangered Species Act, 16 U.S.C. 1533 (f)) cannot guarantee that we will be able to withhold your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Authority**

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533 (f).

Dated: March 26, 2018.

Leopoldo Miranda,  
Acting Regional Director, Southeast Region.

Bureau of Land Management  
[LLIDC00000.18XL1109AF. L10100000.DF0000.241A0; 4500118259]  
Notice of Public Meeting, Coeur d’Alene District Resource Advisory Council, Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meeting.

DATES: The Coeur d’Alene District RAC will meet Thursday, April 19, 2018. The meeting will begin at 9 a.m. and end no later than 4 p.m. The public comment period will take place from 2 p.m. to 2:30 p.m.

ADDRESSES: The Coeur d’Alene District RAC will meet at the BLM Coeur d’Alene District Office, 3815 Schreiber Way, Coeur d’Alene, ID 83815.

FOR FURTHER INFORMATION CONTACT: Suzanne Endsley, RAC Coordinator, Coeur d’Alene District, 3815 Schreiber Way, Coeur d’Alene, ID 83815; telephone: 208–769–5004; email: sendsley@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may contact Ms. Endsley by calling the Federal Relay Service (FRS) at 800–877–8339. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with Ms. Endsley.
You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The 15-member RAC advises the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management in Idaho. The meeting agenda will include updates from the Cottonwood and Coeur d’Alene Field Offices regarding recreation, forestry and fuels projects. Idaho Panhandle National Forest recreation managers will also present recommendations regarding potential new recreation fees and/or increased fee rates to the Recreation RAC. Additional agenda topics or changes to the agenda will be announced in local press releases. More information is available at: https://www.blm.gov/get-involved/resource-advisory-council/near-you/Idaho/coeurdalenedistrict-RAC

RAC meetings are open to the public. The public may present written comments to the RAC. Each formal RAC meeting will also have time allocated for hearing public comments. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do.

Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact the BLM as provided above.

Authority: 43 CFR 1784.4–2.

Linda Clark,
BLM Coeur d’Alene District Manager.

Notice of Availability of the Proposed Notice of Sale for Gulf of Mexico Outer Continental Shelf Oil and Gas Region-Wide Lease Sale 251

ACTION: Notice of Availability of the Proposed Notice of Sale for Gulf of Mexico Outer Continental Shelf Oil and Gas Region-Wide Lease Sale 251.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) announces the availability of the Proposed Notice of Sale (NOS) for the proposed Gulf of Mexico (GOM) Outer Continental Shelf (OCS) Oil and Gas Region-wide Lease Sale 251 (GOM Region-wide Sale 251). This Notice is published pursuant to BOEM’s regulations. With regard to oil and gas leasing on the OCS, the Secretary of the Interior, pursuant to section 19 of the Outer Continental Shelf Lands Act, provides Governors of affected states the opportunity to review and comment on the Proposed NOS. The Proposed NOS sets forth the proposed size, timing, and location of the sale, including lease stipulations, terms and conditions, minimum bids, royalty rates, and rental rates.

DATES: Governors of affected states may comment on the size, timing, and location of proposed GOM Region-wide Sale 251 within 60 days following their receipt of the Proposed NOS. The Final NOS will be published in the Federal Register at least 30 days prior to the date of bid opening. Bid opening is currently scheduled for August 15, 2018.

ADDRESSES: The Proposed NOS for GOM Region-wide Sale 251 and Proposed NOS Package containing information essential to potential bidders may be obtained from the Public Information Unit, Gulf of Mexico Region, Bureau of Ocean Energy Management, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123–2394; telephone: (504) 736–2519. The Proposed NOS and Proposed NOS Package also are available for downloading or viewing on BOEM’s website at http://www.boem.gov/Sale-251/.

FOR FURTHER INFORMATION CONTACT: Dr. Andrew Krueger, Acting Chief, Leasing Management and Policy Division, 703–767–1554, andrew.krueger@boem.gov.

Walter D. Cruickshank,
Acting Director, Bureau of Ocean Energy Management.

INTERNATIONAL TRADE COMMISSION

Glycine From China, India, Japan, and Thailand: Institution of Antidumping and Countervailing Duty Investigations and Scheduling of Preliminary Phase Investigations

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the institution of investigations and commencement of preliminary phase antidumping and countervailing duty investigation Nos. 701–TA–603–605 and 731–TA–1413–1415 (Preliminary) pursuant to the Tariff Act of 1930 (“the Act”) to determine whether there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of glycine from China, India, Japan, and Thailand, provided for in subheading 2922.49.43 and 2922.49.80 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value from India, Japan, and Thailand, and alleged to be subsidized by the governments of China, India, and Thailand. Unless the Department of Commerce (“Commerce”) extends the time for initiation, the Commission must reach a preliminary determination in antidumping and countervailing duty investigations in 45 days, or in this case by May 14, 2018. The Commission’s views must be transmitted to Commerce within five business days thereafter, or by May 21, 2018.
