Court Order; Compliance Date; Formaldehyde Emission Standards for Composite Wood Products

AGENCY: Environmental Protection Agency (EPA).

ACTION: Announcement of court order and compliance date.

SUMMARY: On March 13, 2018, the United States District Court for the Northern District of California issued an order in the case of *Sierra Club and A Community Voice-Louisiana vs. Scott Pruitt*, which resulted in the compliance date for emission standards, recordkeeping, and labeling (*i.e.*, the manufactured-by date or import-by date) becoming June 1, 2018, rather than December 12, 2018. This case involved the formaldehyde regulations for composite wood products under Title VI

of the Toxic Substances Control Act (TSCA) and, specifically, a challenge to EPA’s extension to December 12, 2018 of the December 12, 2017 compliance date in a September 25, 2017 rule.

DATES: April 4, 2018.

II. Announcement of Court Order

On February 16, 2018, the United States District Court for the Northern District of California issued an order granting the plaintiffs' motion for summary judgment and denying EPA's cross-motion for summary judgment in the case of *Sierra Club and A Community Voice-Louisiana vs. Scott Pruitt*, Case No. 4:17-cv-6293-JSW (Ref. 1). However, the Court stayed the February 16, 2018 order until March 9, 2018, so that the parties could work on

a joint submission on the compliance issues related to the order. On March 9, 2018, the plaintiffs, EPA, and representatives of several industry groups filed a joint proposed stipulation and proposed order (Refs. 2, 3). After reviewing the joint proposed stipulation and proposed order, on March 13, 2018, the Court issued an order pursuant to the stipulation and good cause shown that lifted the February 16, 2018 stay on the Court's decision as of June 1, 2018, which results in the compliance date for emission standards, recordkeeping, and labeling (*i.e.*, the manufactured-by date or import-by date) being June 1, 2018, rather than December 12, 2018 (Ref. 4). EPA is making available the February 16, 2018 order, the joint proposed stipulation, the proposed order, and the March 13, 2018 order in the supporting documents section of the docket for this announcement.

III. Current Status of Compliance Dates

By June 1, 2018, and until March 22, 2019, regulated composite wood panels and finished products containing such composite wood panels that are manufactured (in the United States) or imported (into the United States) must be certified as compliant with either the TSCA Title VI or the California Air Resources Board (CARB) Airborne Toxic Control Measures (ATCM) Phase II emission standards, which are set at identical levels, by a third-party certifier (TPC) approved by CARB and recognized by EPA. Previously, these products were required to be TSCA Title VI compliant by December 12, 2018.

Until March 22, 2019, regulated products certified as compliant with the CARB ATCM Phase II emission standards must be labeled as compliant with either the TSCA Title VI or the CARB ATCM Phase II emission standards.

After March 22, 2019, CARB-approved TPCs must comply with additional accreditation requirements in order to remain recognized as an EPA TSCA Title VI TPC and to continue certifying products as TSCA Title VI compliant. Regulated products manufactured in or imported into the United States after March 22, 2019 may not rely on the CARB reciprocity of 40 CFR 770.15(e) and must be certified and labeled as TSCA Title VI compliant by an EPA TSCA Title VI TPC with all of the required accreditations.
