#### **SUPPLEMENTARY INFORMATION:**

### **I. Background**

USTR is providing notice that consultations have been requested pursuant to the WTO *Understanding on Rules and Procedures Governing the Settlement of Disputes* (DSU). If these consultations do not resolve the matter, the United States could request that the WTO establish a dispute settlement panel pursuant to the DSU, which would hold its meetings in Geneva Switzerland, and issue a report on its findings.

### **II. Major Issues Raised by the United States**

On March 14, 2018, the United States requested consultations concerning certain Indian export subsidies provided through: (1) The Export Oriented Units Scheme and sector specific schemes, including Electronics Hardware Technology Parks Scheme, (2) the Merchandise Exports from India Scheme, (3) the Export Promotion Capital Goods Scheme, (4) Special Economic Zones, and (5) a duty-free imports for exporters program.

The United States alleges that India is providing prohibited export subsidies contrary to Articles 3.1(a) and 3.2 of the *Agreement on Subsidies and Countervailing Measures*.

On March 23, 2018, the FAA determined that the request to release property at the South Valley Regional Airport submitted by the Salt Lake City Department of Airports meets the procedural requirements of the Federal Aviation Administration.

The following is a brief overview of the request:

The Salt Lake City Department of Airports is proposing the release from the terms, conditions, reservations, and restrictions on approximately 4.26 acres of federally obligated land at the South Valley Regional Airport. A small portion of the New Bingham Highway will be re-routed from inside of the Runway Protection Zone (RPZ) to the outside and west of the RPZ. This portion of the New Bingham Highway, now inside the RPZ, will be vacated and turned over to airport ownership and maintenance. An additional action is to improve and widen the existing 7800 South Right-of-way. Slivers of land will be needed to accommodate the proposed street widening improvements through this area (0.903 acres) and is included in the overall land release request.

The property release conveyance will include appropriate continuing right of flight and continuing restriction clauses that will prohibit any activity on the land that would interfere with or be a hazard to the flight of aircraft over the land or to and from the airport, or that interferes with air navigation and communications facilities serving the airport.
