Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: National Saltwater Angler Registry and State Exemption Program.

OMB Control Number: 0648-0578.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 2,724.

Average Hours per Response:

Burden Hours: 137.

Needs and Uses: The National Saltwater Angler Registry Program (Registry Program) was established to implement recommendations included in the review of national saltwater angling data collection programs conducted by the National Research Council (NRC) in 2005/2006, and the provisions of the Magnuson-Stevens Reauthorization Act, codified at Section 401(g) of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), which require the Secretary of Commerce to commence improvements to recreational fisheries surveys, including establishing a national saltwater angler and for-hire vessel registry, by January 1, 2009. A final rule that includes regulatory measures to implement the Registry Program (RIN 0648-AW10) was adopted and codified in 50 CFR 600 Subpart P.

The Registry Program collects identification and contact information from those anglers and for-hire vessels who are involved in recreational fishing in the United States Exclusive Economic

Zone or for anadromous fish in any waters, unless the anglers or vessels are exempted from the registration requirement. Data collected includes: For anglers: Name, address, date of birth, telephone contact information and region(s) of the country in which they fish; for for-hire vessels: Owner and operator name, address, date of birth, telephone contact information, vessel name and registration/documentation number and home port or primary operating area. This information is compiled into a national and/or series of regional registries that is being used to support surveys of recreational anglers and for-hire vessels to develop estimates of recreational angling effort.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: Annually.

Respondent's Obligation:

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Monitoring Programs for Vessels in the Pacific Coast Groundfish Fishery.

OMB Control Number: 0648-0500.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 268.

Average Hours Per Response: For providers: 15 minutes for observer training/briefing/debriefing registration, notification of observer physical examination, observer status reports, other reports on observer harassment, safety concerns, or performance problems, catch monitor status reports, and other catch monitor reports on harassment, prohibited actions, illness or injury, or performance problems; 5 minutes for observer safety checklist submission to NMFS, observer provider contracts, observer information materials, catch monitor provider contracts, and catch monitor informational materials; 10 minutes for certificate of insurance; 7 minutes for catch monitor training/briefing registration, notification of catch monitor physical examination, and catch monitor debriefing registration. For vessels: 10 minutes for fishing departure reports and cease-fishing reports.

Burden Hours: 619.

Needs and Uses: In 2011, NMFS mandated observer requirements for the West Coast groundfish trawl catch shares program. For all fishery sectors, observers must be obtained through third-party observer provider companies operating under permits issued by NMFS. The regulations at §§ 660.140 (h), 660.150 (j), 660.160 (g), specify observer coverage requirements for

trawl vessels and define the responsibilities for observer providers, including reporting requirements. Regulations at § 660.140 (i) specify requirements for catch monitor coverage for first receivers. Data collected by observers are used by NMFS to estimate total landed catch and discards, monitor the attainment of annual groundfish allocations, estimate catch rates of prohibited species, and as a component in stock assessments. These data are necessary to comply with the Magnuson-Stevens Act requirements to prevent overfishing. In addition, observer data is used to assess fishing related mortality of protected and endangered species.

Affected Public: Business or other for-profit organizations.

Frequency: Annually, weekly and on occasion.

Respondent's Obligation: Mandatory.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for a new information collection.

The Northwest Fisheries Science Center will conduct a cost and earnings survey of active marine charter fishing vessel companies in Washington and Oregon. The data collected will be used by the National Marine Fisheries Service (NMFS) to address statutory and regulatory mandates to determine the quantity and distribution of net benefits derived from living marine resources as well as to predict the economic impacts from proposed management options on charter fishing businesses, shore side industries, and fishing communities. In particular, these economic data collection programs contribute to legally mandated analyses required under the Magnuson-Stevens Fishery Conservation and Management Act (MFCMS), the National Environmental Policy Act (NEPA), the Regulatory Flexibility Act (RFA), and Executive Order 12866 (E.O. 12866).

II. Method of Collection

An initial screening interview will be completed via telephone, and active marine charter vessels will receive a subsequent mixed-mode (telephone, mail, and in-person) survey.
