

The **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on January 12, 2018 (83 FR 1609). The Commission did not receive any comments addressing the 60-day Notice.

**Burden Statement:** The Commission believes that the additional burden for an exchange to add the two additional elements in the contents of the disciplinary or access denial notice is de minimis.<sup>9</sup> Accordingly, the Commission is maintaining its current estimate of the burden for both collections as result of these reporting requirements. However, the Commission is amending its estimates for the collections to account for the change in the number of DCMs and SEFs currently registered with the Commission. The current respondent burden for these collections are estimated to be as follows:

- OMB Control No. 3038–0052 (Core Principles and Other Requirements for Designated Contract Markets)  
*Number of Respondents:* 15.  
*Estimated Annual Burden Hours per Respondent:* 490.5.  
*Estimated Total Annual Burden Hours on Respondents:* 7,357.5.  
*Frequency of Collection:* As applicable.
- OMB Control No. 3038–0074 (Core Principles and Other Requirements for Swap Execution Facilities)  
*Number of Respondents:* 25.  
*Estimated Annual Burden Hours per Respondent:* 1,000.  
*Estimated Total Annual Burden Hours on Respondents:* 25,000.<sup>10</sup>  
*Frequency of Collection:* As applicable.

The regulations require no new startup or operations and maintenance costs.

(Authority: 44 U.S.C. 3501 *et seq.*)

Dated: April 5, 2018.

**Robert N. Sidman,**

*Deputy Secretary of the Commission.*

**BILLING CODE 6351–01–P**

<sup>9</sup> The Commission stated in the Notice of Proposed Rulemaking that the burden associated with Commission regulation 9.11(b)(3)(ii) requiring an exchange to specify the product involved in the disciplinary or access denial action would be de minimis. 82 FR 7745 (Jan. 23, 2017). The Commission did not receive any comments regarding this determination. The Commission estimates that it will take an exchange just a few seconds to add the product involved in the adverse action and whether the violation underlying the notice resulted in financial harm to any customers.

<sup>10</sup> The Commission notes that collection 3038–0074 includes an additional 1,200 burden hours for SEF registration applicants that have not been affected by this amendment. Therefore, the total burden for this collection is 26,200 hours.

### Federal Energy Regulatory Commission

[Docket No. CP18–10–000]

#### Notice of Schedule for Environmental Review of the Enbridge—Texas Eastern Transmission, L.P. Tx—La Markets Project

On October 19, 2017, Enbridge—Texas Eastern Transmission, L.P. (Texas Eastern) filed an application in Docket No. CP18–10–000 requesting a Certificate of Public Convenience and Necessity pursuant to section 7(c) of the Natural Gas Act to construct and operate certain natural gas facilities. The proposed project is known as the TX—LA Markets Project (Project), and would involve modifications to Texas Eastern's existing Gillis Compressor Station in Beauregard Parish, Louisiana.

On October 31, 2017, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.
