Notice of Intent To Prepare a Resource Management Plan Amendment With Associated Environmental Assessment and Notice of Segregation for the Proposed Dry Lake East Designated Leasing Area, Clark County, NV

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), the Bureau of Land Management (BLM), Las Vegas Field Office (LVFO), intends to prepare a Resource Management Plan Amendment and Environmental Assessment (EA) for the proposed Dry Lake East Designated Leasing Area (DLA), approximately 10 miles northeast of Las Vegas, Nevada, and east of the Dry Lake Solar Energy Zone. Through this Notice the BLM is segregating the public lands located within the proposed DLA from appropriation under the public land laws, including the Mining Law, but not the Mineral Leasing or Material Sales Acts, for a period of up to 2 years from the date of publication of this Notice. Publication of this Notice initiates the beginning of the scoping process to solicit public comments and identify issues.

DATES: This Notice initiates the public scoping process and segregation period for the public lands within the proposed DLA. Comments on issues may be submitted in writing until May 14, 2018. The date(s) and location(s) of any meetings will be announced at least 15 days in advance through local news media and the BLM website at: https://go.usa.gov/xnbdU. In order for comments to be fully considered in the BLM’s Resource Management Plan Amendment/EA, all comments must be received prior to the close of the scoping period or 15 days after the last public meeting, whichever is later.

ADDRESSES: Submit comments related to the project by any of the following methods:
- Email: BLM_NV_SNDO_DLE_DLA@blm.gov.
- E-planning: https://go.usa.gov/xnbdU.
- Fax: (702) 515–5010, attention Nicollee Gaddis.

FOR FURTHER INFORMATION CONTACT: Nicollee Gaddis, Planning & Environmental Coordinator, at telephone (702) 515–5136; or address 4701 North Torrey Pines Drive, Las Vegas, NV 89130–2301; or email ngaddis@blm.gov. Contact Ms. Gaddis to have your name added to the mailing list. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The proposed Dry Lake East DLA would be located on approximately 1,800 acres of lands managed by the BLM, located approximately 10 miles northeast of Las Vegas, Nevada and east of the Dry Lake Solar Energy Zone. Designation of the proposed DLA would allow the BLM to conduct a competitive lease auction for solar development.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the Resource Management Plan Amendment/EA. At present, the BLM has identified the following preliminary issues: Threatened and endangered species, the Old Spanish National Historic Trail, visual resource impacts, surface water, recreation, socioeconomic effects, and cumulative impacts.

The BLM will consult with Native American tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Native American tribal consultation will be conducted in accordance with policy, and tribal concerns will be given due consideration, including impacts on Indian Trust assets. Federal, State, and local agencies, along with other stakeholders that may be interested or affected by the BLM’s decision on this project, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information—may be made publicly available at any time.

While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Segregation: In accordance with 43 CFR 2091.3–10(e) and 43 CFR 2804.25(f), the BLM is segregating the public lands within the proposed DLA from appropriation under the public land laws, including the Mining Law, but not the Mineral Leasing or the Material Sales Acts, for a period of up to 2 years in order to promote the orderly administration of the public lands. This segregation is subject to validating existing mining claims located before this segregation notice. There are currently no mining claims in the identified area. Licenses, permits, cooperative agreements, or discretionary land uses that would be allowed by the temporary nature which would not impact lands identified in this Notice may be allowed with the approval of an authorized officer of the BLM. The segregation period may not exceed 2 years, unless the State Director determines and documents in writing, prior to the expiration of the segregation period, that an extension is necessary for the orderly administration of the public lands. If the State Director determines that an extension is necessary, the BLM will extend the segregation for up to 2 years by publishing a Notice in the Federal Register, prior to the expiration of the initial segregation period.

The lands segregated under this Notice are legally described as follows:

Mount Diablo Meridian, Clark County, Nevada

T. 17 S., R. 64 E., Sec. 32, those portions lying east of the right-of-way boundary of NEV 045565 and west of the right-of-way boundary of CC 0360.

T. 18 S., R. 64 E., Sec. 5, those portions lying west of the right-of-way boundary of CC 0360; Sec. 6, those portions lying east of the right-of-way boundary of NEV 045565; Sec. 7, lots 12, 18, 19, 20, and 29, NE|4NE|4, SW|4NE|4, NV|SE|4, NE|4SE|4, NV|SW|4SE|4, W|4SE|4; and Sec. 8, those portions lying west of the right-of-way boundary of CC 0360.

Termination of the segregation occurs on the earliest of the following dates: Upon issuance of a decision by the authorized officer granting, granting with modifications, or denying the application for a Right of Way; automatically at the end of the segregation; or within publication of a Federal Register Notice of termination of the segregation.
Upon termination of segregation of these lands, all lands subject to this segregation would automatically reopen to appropriation under the public land laws and location under the Mining Law of 1872 (30 U.S.C. 22 et seq.).

Gayle Marrs-Smith, Las Vegas Field Manager.

National Park Service

[45x16] [45x262] Notice of Inventory Completion: New York State Museum, Albany, NY

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The New York State Museum has completed an inventory of human remains, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and present-day Indian Tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to the New York State Museum. If no additional requestors come forward, transfer of control of the human remains to the lineal descendants, Indian Tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to the New York State Museum at the address in this notice by May 14, 2018.

ADDRESSES: Lisa Anderson, New York State Museum, 3049 Cultural Education Center, Albany, NY 12230, telephone (518) 486–2020, email lisa.anderson@nysed.gov.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of the New York State Museum, Albany, NY. The human remains were removed from sites in Onondaga and Tioga Counties, NY.

This notice is published as part of the National Park Service’s administrative responsibilities under NAGPRA, 25 U.S.C. 3003[d](3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the New York State Museum professional staff in consultation with representatives of the Onondaga Nation.

History and Description of the Remains

At some time prior to 1914, human remains representing, at minimum, one individual were removed from a site in the town of Pompey in Onondaga County, NY. The human remains were acquired in 1914 as part of a larger collection purchased from Otis M. Bigelow. The human remains consist of a small cranial fragment from an adult individual of unknown age and sex. No known individual was identified. No associated funerary objects are present.

Beauchamp described the Pompey area as the early home of the Onondaga, where numerous village sites date from the late pre-contact period through the seventeenth century.

In the 1960s, human remains representing, at minimum, two individuals were removed from the vicinity of Endicott, possibly the Engelbert site, in Tioga County, NY. The human remains were found among archeological collections belonging to the New York State Archaeological Association Louis A. Brennan/Lower Hudson Chapter, and were transferred to the museum in 2011. Information with the human remains suggests they may have been excavated by Brennan and studied by Dr. Audrey Sublett at Florida Atlantic University in 1967. Sublett analyzed human remains from the Engelbert site in 1967 and 1968. The human remains represent an adult male, 35–45 years of age, and a single ulna of an adult individual of unknown age and sex. No known individuals were identified. No associated funerary objects are present.

The Engelbert site is a large, multicomponent habitation site that was used intermittently for about 5,000 years. The site was also used as a burial site during at least two different periods, from about A.D. 1000 to the 1400s, and from the late 1500s to possibly the early 1600s. Based on the findings of the NAGPRA Review Committee in 2008, the Engelbert site was determined to be culturally affiliated with Onondaga Nation and the Haudenosaunee Confederacy.

In the 1960s, human remains representing, at minimum, one individual were removed from the Oran-Barnes site in Onondaga County, NY. The human remains were collected from the surface of the site by Stanley Gibson, whose family donated the remains to the museum as part of a larger collection in 2009. The human remains consist of a femur fragment from an adult individual of unknown age and sex (#A2009.35K). No known individual was identified. No associated funerary objects are present.

In 1976, human remains representing, at minimum, one individual were removed from the Oran-Barnes site in Onondaga County, NY. The human remains were collected from the surface of a hillside midden by James Bradley, who donated them to the museum in 2009. The human remains include one small cranial fragment and a tooth representing at least one adult individual of unknown age and sex (#A2009.138.99.16–17). No known individual was identified. No associated funerary objects are present.

The Oran-Barnes site is a large village site that has been dated to the late pre-contact period, circa A.D. 1500, based on the type of settlement and the artifacts present, including pottery.

In 1977, human remains representing, at minimum, one individual were removed from the Shurtleff site in Onondaga County, NY. The human remains were collected from the surface of a hillside midden by James Bradley, who donated them to the museum as part of a larger collection in 2012. The human remains consist of three small cranial fragments and a foot phalange from at least one adult individual of unknown age and sex (#A2012.05B.61–62). No known individual was identified. No associated funerary objects are present.

The Shurtleff site is considered an early historic Onondaga village site that has been dated to approximately A.D. 1635–1645 (or 1630–1640) based on the types of glass beads found at the site.

Determinations Made by the [Museum or Federal Agency]

Officials of the New York State Museum have determined that:

• Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 6
