

might mean for operation during years not covered by the agreement. Rather, the EPA's analysis is based on economic incentives and market conditions, which support that Brunner Island will primarily combust natural gas, consistent with trends in the electric generating industry. The commenter has not provided any information challenging this analysis, and merely speculates on potentially fluctuating market forces and potential motivations behind Brunner Island's agreements. This speculation does not outweigh the EPA's reasoned evidence-based analysis of Brunner Island's likely behavior during the ozone season. Thus, without specific evidence or analysis to the contrary, the EPA has no reason to believe that the evidence provided in either the proposed or final action is inaccurate. The EPA notes that if in fact Brunner Island's operations change such that the facility is operating primarily on coal during future ozone seasons and future emission levels increase significantly, then today's final action denying Connecticut's section 126 petition would not preclude the State from submitting another petition regarding Brunner Island's impacts. The EPA is not, however, pre-determining what action may be appropriate on any such future petition, which would depend upon a variety of factors, including the level of emissions at Brunner Island and future ozone concentrations in Connecticut.

IV. Final Action To Deny Connecticut's Section 126(b) Petition

Based on the considerations outlined at proposal, after considering all comments, and for the reasons described in this notice, the EPA is denying the Connecticut's section 126(b) petition regarding the Brunner Island facility in York County, Pennsylvania. The EPA finds that Connecticut has not met its burden to demonstrate that Brunner Island emits or would emit in violation of the good neighbor provision with respect to the 2008 ozone NAAQS. The EPA also finds, based on its own analysis, that there are no additional highly cost-effective controls available at the source and thus no basis at this time to determine that Brunner Island emits or would emit in violation of the good neighbor provision with respect to the 2008 ozone NAAQS.

V. Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate regional circuit June 12, 2018. Filing a

petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. *See* CAA section 307(b)(2).
