[Docket Nos. CP18–137–000 PF17–6–000]

Columbia Gas Transmission, LLC; Notice of Application

Take notice that on March 26, 2018, Columbia Gas Transmission, LLC (Columbia), 700 Louisiana Street, Suite 700, Houston, Texas 77002–2700, filed in Docket No. CP18–137–000, an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act (NGA) for its proposed Buckeye XPress Project. Specifically, Columbia proposes to: (i) Construct approximately 66.2 miles of 36-inch-diameter pipeline and appurtenances; and (ii) abandon approximately 60.8 miles of 20- and 24-inch-diameter pipeline and appurtenances, all located in Vinton, Jackson, Gallia, and Lawrence Counties, Ohio and Wayne County, West Virginia. The project would provide 275,000 dekatherms per day of firm transportation service. Columbia estimates the cost of the Buckeye XPress Project to be $709,200,216, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s website web at http://www.ferc.gov using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TYY, (202) 502–8659.

Any questions concerning this application may be directed to Robert Jackson, Manager, Certificates & Regulatory Administration, Columbia Gas Transmission, LLC, 700 Louisiana Street, Suite 700, Houston, Texas 77002–2700, by telephone at (832) 320–5487 or by email at robert.jackson@transcanada.com.

On August 1, 2017, Commission staff granted Columbia’s request to utilize the Pre-Filing Process and assigned Docket No. PF17–6–000 to staff activities involved in the Buckeye XPress Project. Now, as of the March 26, 2018 application, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in CP18–137–000, as noted in the caption of the Notice.

Pursuant to section 157.9 of the Commission’s rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the environmental assessment (EA) for this proposal. The issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders or the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project...
