

regulations implementing NEPA (Engineer Regulation 200-2-2), feasibility reports for authorization and construction of major projects normally require an Environmental Impact Statement. Upon receipt of the environmental documentation, the Army has evaluated the information submitted to confirm that the SFWMD's recommended plan requires an Environmental Impact Statement (EIS). Since this is a non-federal study carried out under Section 203, the Army's determinations pursuant to section 203 and Environmental Impact Statement for this report will describe the results of the review required by Section 203(b) of the non-federal interest's feasibility study, including a determination of whether the project is feasible, any recommendations concerning the plan or design of the project, and, any conditions the Secretary may require for construction of the project.

4. The Corps is seeking participation of all interested Federal, state, and local agencies, Native American groups, and other concerned private organizations or individuals through this 15-day public notice. The purpose of the public scoping period is to solicit comments regarding the potential impacts, environmental issues, and alternatives associated with the study submitted by SFWMD; and provide other relevant information. The Corps will not hold public scoping meetings as part of this process. The public will have an additional opportunity to comment once its DEIS is released, which is anticipated to be in 2018. The Corps will announce availability of its DEIS in the **Federal Register** and other media, and will provide a review period for the public, organizations, and agencies to review and comment on its DEIS. All interested parties should respond to this notice and provide a current address if they wish to be notified of the DEIS circulation. As a part of the SFWMD's project development, routine interagency and stakeholder coordination meetings were conducted, providing Federal, Tribal, State, and local agencies opportunities to comment on planning assumptions, evaluation tools and methods, and alternative plans to assist with meeting NEPA public coordination requirements. Upon completion of the SFWMD study, it underwent Agency Technical Review and Independent External Peer Review, and was made available for review March 26, 2018 on the SFWMD website.

5. It is estimated that the draft environmental impact statement will be made available to the public in 2018.

Dated: April 9, 2018.

Eric Summa,

Chief, Planning and Policy Division, U.S. Army Corps of Engineers Jacksonville District.
