

Number of Respondents: 3,825 responses per year.

Average Hours per Response: The USPTO estimates that it will take the public approximately 30 minutes (0.50 hours) to read the instructions and subscriber agreement, gather the necessary information, prepare the Certificate Action Form, and submit the completed request.

Needs and Uses:

This information collection covers the Certificate Action Form (PTO–2042), which is used by the public to request a new digital certificate, revoke a current certificate, or recover a lost or corrupted certificate. Customers may also change the name listed on the certificate or associate the certificate with one or more Customer Numbers. A Customer Number allows an applicant to associate all correspondence and USPTO actions regarding multiple patent applications to a single address and name. The Certificate Action Form must include a notarized signature in order to verify the identity of the applicant. The Certificate Action Form has an accompanying subscriber agreement to ensure that customers understand their obligations regarding the use of the digital certificates and cryptographic software. When generating a new certificate, customers also register to receive a set of seven codes that will enable customers to recover a lost certificate online without having to contact USPTO support staff.

Frequency: On occasion.

Respondent's Obligation: Required to Obtain or Retain Benefits.
