shipments during the POR.\textsuperscript{7} Because there has not been any contradictory information added to the record of this review since the Preliminary Results, based on record evidence, Commerce continues to find that AMLT did not ship subject merchandise during the POR. Accordingly, consistent with Commerce’s practice, we intend to instruct U.S. Customs and Border Protection (CBP) to liquidate any existing entries of subject merchandise made during the POR that were produced by AMLT, but exported by other parties without their own rate, at the all-others rate effective during the POR.\textsuperscript{8}

Final Results of Administrative Review

Commerce finds that the following estimated weighted-average dumping margin exists during the POR, as referenced below:

Assessment and Cash Deposit Requirements

In accordance with 19 CFR 351.212(b)(1), Commerce intends to issue appropriate instructions to CBP 41 days after publication of the final results of this review.\textsuperscript{9}

For Deacero, because its weighted-average dumping margin is not zero or de minimis (i.e., less than 0.5 percent), Commerce has calculated importer-specific antidumping duty assessment rates. We calculated importer-specific ad valorem antidumping duty assessment rates by aggregating the total amount of dumping calculated for the examined sales of each importer and dividing each of these amounts by the total entered value associated with those sales. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review where an importer-specific assessment rate is not zero or de minimis. Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the importer-specific assessment rate is zero or de minimis.

As noted in the “Final Determination of No Shipments” section, above, Commerce will instruct CBP to liquidate any existing entries of merchandise produced by AMLT but exported by other parties, at the rate for the intermediate reseller, if available, or at the all-others rate.

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication of the final results of this administrative review, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for Deacero will be the rate established in the final results of this administrative review; (2) for merchandise exported by producers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the producer is, the cash deposit rate will be the rate established for the most recent period for the producer of the merchandise; and (4) the cash deposit rate for all other producer or exporters will continue to be 20.11 percent, the all-others rate established in the investigation.\textsuperscript{10} These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

These final results are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Gary Taverman,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.
