A. Overview of Information Collection*Title of Information Collection:*

Congregate Housing Services Program.

OMB Approval Number: 2502-0485.

Type of Request: Extension of currently approved collection.

Form Number: SF-424, 425, HUD-90003, HUD-90006, HUD-90198, HUD-91180-A, HUD-91178-A

Description of the need for the information and proposed use:

Completion of the Annual Report by grantees provides HUD with essential information about whom the grant is

serving and what sort of services the beneficiaries receive using grant funds.

The Summary Budget and the Annual Program Budget make up the budget of the grantee's annual extension request. Together the forms provide itemized expenses for anticipated program costs and a matrix of budgeted yearly costs. The budget forms show the services funded through the grant and demonstrate how matching funds, participant fees, and grant funds will be used in tandem to operate the grant program. Field staff approve the annual budget and request annual extension funds according to the budget. Field staff can also determine if grantees are meeting statutory and regulatory requirements through the evaluation of this budget.

HUD will use the Payment Voucher to monitor use of grant funds for eligible activities over the term of the grant. The Grantee may similarly use the Payment Voucher to track and record their requests for payment reimbursement for grant-funded activities.

Abstract: This notice concerns the collection of information to inform evaluation and selection of proposals for NGGDPP funding. Annual NGGDPP data preservation priorities are provided in the Program Announcement. Proposals are accepted from state geological surveys requesting funds to inventory, preserve, and make publicly available geoscience collections and data. Financial assistance is awarded annually on a competitive basis following the evaluation and ranking of state proposals by a review panel composed of representatives from the Department of the Interior, state geological surveys, and academic and museum institutions. Since its inception in 2007, NGGDPP has awarded 46 states \$7,043,000, which, when matched or exceeded by the states, amounts to over \$14 million invested in the rescue and preservation of valuable geoscientific samples and data for research. To submit a proposal, respondents must complete a project narrative and submit the application via www.grants.gov. Grant recipients must complete a final technical report at the end of the project period. Narrative and report guidance is available at <http://datapreservation.usgs.gov> and in the Program Announcement.
