

3. Open Licensing Requirements:

Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20(c).

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report (APR) that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

5. *Performance Measures:* The Department has established the following Government Performance and Results Act of 1993 performance measures for the IAL program: (1) The percentage of four-year-old children participating in the project who achieve significant gains in oral language skills; (2) the percentage of fourth graders participating in the project who demonstrated individual student growth (*i.e.*, an improvement in their achievement) over the past year on State reading or language arts assessments under section 1111(b)(3) of the ESEA; (3) the percentage of eighth graders participating in the project who demonstrated individual student growth (*i.e.*, an improvement in their

achievement) over the past year on State reading or language arts assessments under section 1111(b)(3) of the ESEA; (4) the percentage of schools participating in the project whose book-to-student ratios increase from the previous year; and (5) the percentage of participating children who receive at least one free, grade- and language-appropriate book of their own.

All grantees will be expected to submit an APR that includes data addressing these performance measures to the extent that they apply to the grantee's project.

6. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[EERE 2018-AM-00XX]

Agency Information Collection Extension

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

ACTION: Notice.

SUMMARY: The Department of Energy has submitted an information collection package to the OMB for extension under the provisions of the Paperwork Reduction Act of 1995. The package requests a three-year extension of its "Superior Energy Performance (SEP) Certification and 50001 Ready Recognition," OMB Control Number 1910-5177. The proposed collection of information relates to tracking partner participation and calculating the energy efficiency impact of DOE's Superior Energy Performance certification and 50001 Ready recognition programs.

DATES: Comments regarding this collection must be received on or before May 18, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202-395-4650 or contacted by email at chad_s_whiteman@omb.eop.gov.

ADDRESSES: Written comments should be sent to the: Desk Officer for the Department of Energy, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW, Washington, DC 20503.

And to: Mr. Paul Scheihing, Office of Energy Efficiency and Renewable Energy (EE-5A), U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585, or by fax at 202-586-9234, or by email at paul.scheihing@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or

copies of the information collection instrument and instructions should be directed to Mr. Paul Scheiing at the contact information listed above or phone at 202-586-7234.

SUPPLEMENTARY INFORMATION: This package contains: (1) OMB No. 1910-5177; (2) Information Collection Request Title: Department of Energy Superior Energy Performance (SEP) Certification and 50001 Ready Recognition; (3) Type of Review: Renewal; (4) Purpose: This Information Collection Request applies to the Department of Energy (DOE) voluntary ISO 50001 programs for industrial facilities: Superior Energy Performance® (SEP®) and 50001 Ready™ recognition. SEP is an energy efficiency certification and recognition program for commercial, institutional, and industrial facilities demonstrating excellence in energy management as well as continual improvement in energy efficiency through third-party verified energy performance. 50001 Ready recognition is a self-attestation of the implementation of an ISO 50001 energy management system without the need for external audits.

DOE's 50001 Ready provides an on-ramp towards SEP certification. It is a self-guided approach for facilities to establish an energy management system and self-attest to the structure of the ISO 50001 energy management system. SEP certification builds on ISO 50001 provides a rigorous, internationally-recognized business process for companies to continually improve their energy performance. The SEP third-party verification of energy performance improvement is unique in the marketplace, and assists to differentiate certified companies from their competitors. This request for information consists of a voluntary data collection process for SEP participation: to manage and track certification cycles, and provide recognition for verified energy performance improvements. 50001 Ready collects a minimal amount of self-attested information to manage and track recognition cycles and to recognize the achievements of its participants.

The following types of information are collected from primary participants: (1) Background data, including contact information and basic information and basic facility information about its energy use, energy consumption, and energy performance indicators—collected in the SEP Application Form; (2) Information on energy performance improvement in SEP-certified facilities—collected in the SEP Energy Performance Improvement Report. 50001 Ready collects only a subset of

the same types of information, and without the need for external audit. Background data will primarily be used to track basic information about SEP and 50001 Ready participants and identify opportunities to provide participants with technical assistance. Basic information about a facility's energy use, energy consumption, and energy performance indicators will be used to administer SEP and 50001 Ready. Information on energy performance improvement will be used by DOE to manage and track participation cycles, and to track the results of participation in SEP and 50001 Ready. Responses to the DOE's Information Collection Request will be voluntary. (5) Annual Estimated Number of Respondents: 233; (6) Annual Estimated Number of Responses: 233; (7) Annual Estimated Number of Burden Hours: 333; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$18,667.

Statutory Authority: Accelerating Investment in Industrial Energy Efficiency. Executive Order 13624, 77 FR 54779 (Aug. 30, 2012); 42 U.S.C. 16191.

Issued in Washington, DC, on: April 9, 2018.

Paul Scheiing,

Technology Manager, Advanced Manufacturing Office, Energy Efficiency and Renewable Energy.
