Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Under these regulations, longan from Taiwan are subject to certain conditions before entering the United States to ensure that plant pests are not introduced into the United States. In addition, the fruit must be accompanied by a phytosanitary certificate stating that the fruit was inspected and found to be free of certain pests, and the individual cartons or boxes in which the longan are shipped must be stamped or printed with a statement prohibiting their importation into or distribution within the State of Florida. Lastly, under certain circumstances, an emergency action of notice may be required.
