SUPPLEMENTARY INFORMATION:

I. Background

National Customs Automation Program Test

The National Customs Automation Program (NCAP) was established by Subtitle B of Title VI—Customs Modernization in the North American Free Trade Agreement (NAFTA) Implementation Act (Customs Modernization Act) (Pub. L. 103-182, 107 Stat. 2057, 2170, December 8, 1993) (19 U.S.C. 1411). Through NCAP, the thrust of customs modernization was on trade compliance and the development of the Automated Commercial Environment (ACE), the planned successor to the Automated Commercial System (ACS) as the electronic data interchange (EDI) system authorized by U.S. Customs and Border Protection (CBP). ACE is an automated and electronic system for commercial trade processing which is intended to streamline business processes, facilitate growth in trade, ensure cargo security,

and foster participation in global commerce, while ensuring compliance with U.S. laws and regulations and reducing costs for CBP and all of its communities of interest. The ability to meet these objectives depends on successfully modernizing CBP’s business functions and the information technology that supports those functions.

CBP’s modernization efforts are accomplished through phased releases of ACE component functionality designed to replace specific legacy ACS functions and add new functionality. Section 101.9(b) of title 19 of the Code of Federal Regulations (19 CFR 101.9(b)) provides for the testing of NCAP components. *See* T.D. 95-21, 60 FR 14211 (March 16, 1995).

The U.S. Fish and Wildlife Service (FWS) Partner Government Message Set (PGA) and Digital Image System (DIS) Test

On May 5, 2016, CBP published a notice in the **Federal Register** (81 FR 27149) announcing an NCAP test concerning the electronic submission of certain import data and documents for commodities regulated by FWS (“FWS test”). The test notice provided that test participants would electronically submit data contained in FWS’s “Declaration for Importation or Exportation of Fish and Wildlife” (“Declaration” or “FWS Form 3-177”) to ACE using the Partner Government Agency (PGA) Message Set, and any required original permits or certificates, and copies of any other documents required under the FWS regulations (*see* 50 CFR part 14) to ACE via the Document Image System (DIS). Under the test, ACE replaced FWS’s internet-based filing system (“eDecs”) used for the electronic submission of the Declaration and accompanying documents. After receipt in ACE, the data and electronic documents would be sent to FWS for processing. The test notice further stated that original “Convention on International Trade in Endangered Species of Wild Fauna and Flora” (“CITES”) permits and certificates, and foreign-law paper documents would continue to be submitted directly to the FWS office at the applicable port. There was a lack of participation, and on January 12, 2017, the FWS PGA Message Set test was suspended due to concerns raised by the industry regarding the design of the message set. *See* CSMS Message Set 17-000015.
