It is estimated that the Nitrex™ system SEP will reduce discharges at Captree by approximately 378 pounds per year, which is 40 additional pounds of nitrogen reduction compared with the estimated reduction from the constructed wetland SEP. The Nitrex™ system SEP also will disturb less of an adjacent shoreline. Additionally, under the Amendment, the SEP offers a public educational component to demonstrate the nitrogen cycle and environmental benefits of nitrogen removal.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Annual Funding Notice for Defined Benefit Pension Plans information collection. Employee Retirement Income Security Act of 1974 (ERISA) section 101(f) sets forth the requirements applicable to furnishing defined benefit plan annual funding notices to the Pension Benefit Guarantee Corporation, each plan participant and beneficiary, each labor organization representing such participants or beneficiaries, and each employer obligated to make contributions to a multiemployer plan. An annual funding notice must include, among other things, the plan’s funding percentage, a statement of the value of the plan’s assets and liabilities and a description of how the plan’s assets are invested as of specific dates, and a description of the benefits under the plan that are eligible to be guaranteed by the PBGC. ERISA sections 101(f) and 102 authorize this information collection. See 29 U.S.C. 1021(f), 1022.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210–0126.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on April 30, 2018. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 12, 2017 (82 FR 47581).

In order to help ensure appropriate consideration, comments

- Enhance the quality, utility, and clarity of the information to be collected; and

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Local Area Unemployment Statistics (LAUS) Program information collection. The BLS has the statutory responsibility of collecting and publishing monthly information on employment, the average wage received, and the hours worked by area and industry. The LAUS program develops residency-based employment and unemployment statistics through a cooperative Federal-State program that uses employment and unemployment inputs available in State agencies. State agencies prepare monthly estimates and transmit them to the BLS for validation and publication. This information collection has been classified as a revision, because of changes to LAUS Technical Memoranda. The BLS

Authorizing Statute authorizes this information collection. See 29 U.S.C. 1, 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220–0017. The current approval is scheduled to expire on April 30, 2018; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 16, 2018 (83 FR 2217).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**.
