§ 165.T01–0304 Safety Zone; Housatonic River, Milford and Stratford, CT.

1. The authority citation for part 165 continues to read as follows:

2. Add § 165.T01–0304 to read as follows:

§ 165.T01–0304 Safety Zone; Housatonic River, Milford and Stratford, CT.

(a) Location. The following area is a safety zone: All navigable waters of the Housatonic River near Milford and Stratford, CT contained within the following area: Beginning at a point on land in position at 41°12′14.5″ N, 073°06′40.6″ W south of the Governor John Davis Lodge Turnpike (I–95) Bridge; then northeast across the Housatonic River to a point on land in position at 41°12′17.7″ N, 073°06′29.1″ W south of the Governor John Davis Lodge Turnpike (I–95) Bridge; then northwest along the shoreline to a point on land in position at 41°12′25″ N, 073°06′31″ W; then southwest across the Housatonic River to a point on land in position at 41°12′22″ N, 073°06′43″ W; then southeast along the shoreline back to point of origin (NAD 83). All positions are approximate.

(b) Effective and enforcement period. This rule is effective from 6:00 a.m. on April 5, 2018 to 6:00 p.m. on May 15, 2018. The Coast Guard will issue a Broadcast Notice to Mariners via VHF–FM marine channel 16 twenty-four (24) hours prior to any scheduled period of enforcement or as soon as practicable in response to an emergency.

(c) Definitions. The following definitions apply to this section:

(1) A “designated representative” is any Coast Guard commissioned, warrant or petty officer of the U.S. Coast Guard who has been designated by the Captain of the Port Long Island Sound (COTP), to act on his or her behalf. The designated representative may be on an official patrol vessel or may be on shore and will communicate with vessels via VHF–FM radio or loudhailer.

(2) An “Official patrol vessel” may be any Coast Guard, Coast Guard Auxiliary, state, or local law enforcement vessels assigned or approved by the COTP Long Island Sound. In addition, members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation.

(d) Regulations. (1) Under the general safety zone regulations in subpart C of this part, you may not enter or remain in the safety zone described in paragraph (a) of this section unless authorized by the COTP or one of the COTP’s designated representatives.

(2) Any vessel that is granted permission by the COTP or a designated representative must proceed through the area with caution and operate at a speed no faster than necessary to maintain a safe course, unless otherwise required by the Navigation Rules.

(3) Any person or vessel permitted to enter the safety zone shall comply with the directions and orders of the COTP or a designated representative. Upon being hailed by a U.S. Coast Guard vessel by siren, radio, flashing lights, or other means, the operator of a vessel within the zone shall proceed as directed. Any person or vessel within the safety zone shall exit the zone when directed by the COTP or a designated representative.

(4) To seek permission to enter or remain in the safety zone, individuals may reach the COTP or a designated representative via Channel 16 (VHF–FM) or at 203–468–4401 (Sector Long Island Sound command center).

K.B. Reed,
Commander, U.S. Coast Guard, Acting Captain of the Port Long Island Sound.

BILLING CODE 9110–04–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 54

[WC Docket Nos. 10–90; FCC 18–37]

Connect America Fund

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) for the period beginning January 1, 2017, increases the amount of operating costs that carriers that predominantly serve Tribal lands can recover from the universal service fund (USF) in recognition that they are likely to have higher costs than carriers not serving Tribal lands. This action will provide additional funding to these carriers to provide both voice and broadband services to their customers.

FOR FURTHER INFORMATION CONTACT: Suzanne Yelen, Wireline Competition Bureau, (202) 418–7400 or TTY: (202) 418–0484.

Synopsis

1. Introduction

1. In this Report and Order (Order), for the period beginning January 1, 2017, the Commission increases the amount of operating costs that carriers that predominantly serve Tribal lands can recover from the universal service fund (USF) in recognition that they are likely to have higher costs than carriers not serving Tribal lands. This action will provide additional funding to these carriers to provide both voice and broadband services to their customers.

2. In March 2016, the Commission adopted the Rate-of-Return Reform Order and FNPRM establishing a new mechanism for the distribution of Connect America Fund support in rate-of-return areas. In the March 2016 Rate-of-Return Reform Order and Further Notice of Proposed Rulemaking (FNPRM), 81 FR 24282, April 25, 2016

L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 01. A Record of Environmental Consideration supporting this determination will be available in the docket where indicated under ADDRESSES.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the FOR FURTHER INFORMATION CONTACT section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and record keeping requirements, Security measures, and Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. Add § 165.T01–0304 to read as follows:
and 81 FR 21511, April 12, 2016, the Commission adopted a limitation on the amount of operating expenses (opex) for which rate-of-return carriers may receive high-cost support, such that each carrier’s opex eligible for high-cost support is limited to a regression model-generated opex per location plus 1.5 standard deviations. In the FNPRM, the Commission asked whether the opex limitations should be modified for carriers serving Tribal lands.

3. The Commission is persuaded based on the record before us that there is good reason to increase the opex limitation for carriers receiving legacy high-cost support that primarily serve Tribal lands because of the increased costs of providing service on Tribal lands. Both the National Tribal Telecommunications Association (NTTA) and Gila River Telecommunications, Inc. (GRTI) cite a number of unique costs faced by carriers serving Tribal lands. They explain that carriers generally must invest significant time and financial resources in securing rights-of-way and easements to install new broadband facilities on Tribal lands due to the number of permissions that must be obtained. Such permissions include the consent of multiple owners of allotted lands, as well as the consent of Tribal authorities, the Bureau of Indian Affairs (BIA), and other administrators and managers of Native trust lands. In some cases, letters of support from Tribal villages in or near the construction areas are also required. NTTA and GRTI represent that the process of obtaining Tribal cultural clearances, as well as the cost of compliance with the Archeological Resources Protection Act of 1979 and the National Historic Preservation Act of 1966, and coordination of National Environmental Protection Act compliance with BIA, are often significant. Commenters also point out that Tribal sovereignty issues require additional negotiation and legal review, that many Tribes require that qualified members of the Tribe be given preference in hiring and promotion, and that some Tribal authorities require construction observation by a Tribal member. In sum, the Commission is persuaded based on the record before us that there are unique costs associated with serving Tribal lands that warrant revisiting the opex limit adopted by us for this subset of carriers. Therefore, the Commission relaxes the opex limit for those study areas most in need where a majority of the housing units are on Tribal lands, as determined by the Bureau using U.S. Census data.

5. In addition, the Commission limits this relief to those carriers meeting the following conditions. First, the carrier has not deployed broadband service of 10 Mbps download/1 Mbps upload to 90 percent or more of the housing units on the Tribal lands in its study area. Second, unsubsidized competitors have not deployed broadband service of 10 Mbps download/1 Mbps upload to 85 percent or more of the housing units on the Tribal lands in its study area. The Commission believes that these conditions will limit this relief to those carriers with the greatest need to accelerate broadband deployment.

6. All universal service support must be necessary and reasonable for the provision, maintenance, and upgrading of facilities and services for which the support is intended. The Commission understands that some carriers serving Tribal lands may have significant sources of telecommunications-associated revenue which is passed through to a tribe or may have particular costs imposed by a tribe. The Commission expects Tribal carriers to be able to demonstrate in the event such revenue or costs are questioned that in fact the revenues or cost are necessary and reasonable for the provision, maintenance, and upgrading of facilities and services for which the support is intended.

7. Bureau staff estimates in 2017 and/or 2018 that five carriers that have been affected by the opex cap are eligible for the opex limitation. The Commission concludes that a 2.5 standard deviation limit will still provide an incentive for eligible carriers to avoid imprudent or unnecessary expenses, while recognizing the higher costs associated with providing service on Tribal lands. Because we determine that an opex limit of 2.5 standard deviations is appropriate for those study areas where a majority of the housing units are on Tribal lands and that meet our other conditions, we direct the Universal Service Administrative Company (USAC) to use the 2.5 standard deviation metric for these study areas for support calculations for the period beginning January 1, 2017, when the opex limitation was implemented.

II. Procedural Matters

A. Paperwork Reduction Act

8. This document does not contain new information collection requirements subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. In addition, therefore, it does not contain any new or substantially modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small

B. Congressional Review Act

10. As required by the Regulatory Flexibility Act of 1980 (RFA), as amended, an Initial Regulatory Flexibility Analyses (IRFA) was incorporated in the Rate-of-Return Reform Order and/or FNPRM. The Commission sought written public comment on the proposals in the Rate-of-Return Reform FNPRM, including comment on the IRFA. The Commission did not receive any relevant comments in response to this IRFA. This Final Regulatory Flexibility Analysis (FRFA) conforms to the RFA.

11. The Report and Order increases the amount of operating expenses that rate-of-return carriers predominantly serving Tribal lands can recover from the universal service fund (USF). This increase recognizes that carriers serving Tribal lands are likely to have higher operating costs than carriers serving non-Tribal areas.

12. The RFA directs agencies to provide a description of, and where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted. The RFA generally defines the term “small entity” as having the same meaning as the terms “small business,” “small organization,” and “small governmental jurisdiction.” In addition, the term “small business” has the same meaning as the term “small-business concern” under the Small Business Act. A small-business concern is one which: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).

13. There are three comprehensive, statutory small entity size standards. First, nationwide, there are a total of approximately 28.2 million small businesses, according to the SBA, which represents 99.7% of all businesses in the United States. In addition, a “small organization” is generally “any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.” Nationwide, as of 2007, there were approximately 1,621,215 small organizations. Finally, the term “small governmental jurisdiction” is defined generally as “governments of cities, towns, townships, villages, school districts, or special districts, with a population of less than fifty thousand.” Census Bureau data for 2011 indicate that there were 90,056 local governmental jurisdictions in the United States. The Commission estimates that, of this total, as many as 89,327 entities may qualify as “small governmental jurisdictions.”

14. The action taken in this Report and Order would affect a maximum of approximately 50 small entities and will likely only affect approximately seven or eight entities per year.

15. No additional reporting, recordkeeping, or other compliance requirements are required by this Report and Order.

16. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include (among others) the following four alternatives: (1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule, or any part thereof, for small entities. The Commission has considered all of these factors subsequent to receiving substantive comments from the public and potentially affected entities. The Commission has considered the economic impact on small entities, as identified in comments filed in response to the Rate-of-Return Reform FNPRM and its IRFA, in reaching its final conclusions and taking action in this proceeding.

17. The Commission has, at the request of the carriers, increased the amount of operating expenses that rate-of-return carriers predominantly serving Tribal lands can recover from the universal service fund (USF). By raising this limitation, we recognize the higher costs of these small carriers in serving Tribal areas. The higher operating expense limit does not involve additional reporting or recordkeeping requirements.

III. Ordering Clauses

18. Accordingly, it is ordered, pursuant to the authority contained in sections 1, 2, 4(l), 5, 201–206, 214, 218–220, 251, 252, 254, 256, 303(r), 332, 403, and 405 of the Communications Act of 1934, as amended, and section 706 of the Telecommunications Act of 1996, 47 U.S.C. 151, 152, 154(i), 155, 201–206, 214, 218–220, 251, 252, 254, 256, 303(r), 332, 403, and 1302 that this Report and Order is adopted.

19. It is further ordered that part 54, of the Commission’s rules, 47 CFR part 54, is amended as set forth in the following.

20. It is further ordered that the rules adopted herein will become effective May 31, 2018.

21. It is further ordered that USAC implement the rule adopted herein for support calculations beginning January 1, 2017.

List of Subjects in 47 CFR Part 54

Communications common carriers, Health facilities, Infants and children, Internet, Libraries, Reporting and recordkeeping requirements, Schools, Telecommunications, Telephone.

Federal Communications Commission.

Marlene Dortch,
Secretary, Office of the Secretary.

Final Rules

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 54 as follows:

PART 54—UNIVERSAL SERVICE

1. The authority citation for part 54 continues to read as follows:

Authority: 47 U.S.C. 151, 154(i), 155, 201, 205, 214, 219, 220, 254, 303(r), 403, and 1302 unless otherwise noted.

2. Amend § 54.303 by adding paragraph (a)(6) to read as follows:

§ 54.303 Eligible Capital Investment and Operating Expenses.

(a) * * *

(6) For those study areas where a majority of the housing units are on Tribal lands, as determined by the Wireline Competition Bureau, and meet the following conditions, total eligible annual operating expenses per location shall be limited by calculating Exp (Y + 2.5 * mean square error of the regression): The carrier serving the study area has not deployed broadband service of 10 Mbps download/1 Mbps upload to 90 percent or more of the housing units on the Tribal lands in its study area and unsubsidized competitors have not deployed broadband service of 10 Mbps download/1 Mbps upload to 85 percent or more of the housing units on the Tribal lands in its study area.

* * * * *
