*Type of Review:* Reinstatement of a currently approved collection.

*Abstract:* Ethics consultation is a service provided in all Veterans Health Administration (VHA) facilities. We define ethics consultation as a service provided by an individual ethics consultant, ethics consultation team, or ethics committee to help patients, providers, and other parties resolve ethical concerns in a health care setting. The overall goal of ethics consultation is to improve health care quality by facilitating the resolution of ethical concerns. By providing a forum for discussion and methods for careful analysis, effective ethics consultation:

- Promotes practices consistent with high ethical standards
- helps foster consensus and resolve conflict in an atmosphere of respect
- honors participants' authority and values in the decision-making process
- educates participants to handle current and future ethical concerns

Ensuring the success of the ethics consultation service also requires ongoing evaluation, by which we mean systematic assessment of the operation and/or outcomes of a program compared to a set of explicit or implicit standards, as a means of contributing to the continuous improvement of the program. Evaluation is an important

strategy to improve the process of ethics consultation (*i.e.*, how ethics consultation is being performed) as well as its outcomes (*i.e.*, how ethics consultation affects participants and the facility).
