

While the decision to use separate questions means the final content design announced here differs from what was proposed in the previous notice, the possibility of using separate questions for race and ethnicity and its effect on the prototype file design was addressed in that notice. Using separate questions follows the most current race and ethnicity collection guidance set by the Office of Management and Budget, which remains unchanged since 1997.

In accordance with the provisions of Title 13, U.S.C., Section 141(c), and on behalf of the Secretary of Commerce, the U.S. Census Bureau Director previously requested comments on the proposed content of the required population counts being produced as part of Phase 3 of the 2020 Census Redistricting Data Program.

The proposed content stated that should the Census Bureau use separate questions on race and ethnicity, then the prototype file would revert to the same design as that used for the 2010 Census. In addition, the proposed content stated that regardless of whether a separate or combined question format is used in the 2020 Census, a group quarters table will be added to assist those states that reallocate populations before redistricting. This table will include the group quarters categories of: Institutionalized populations (correctional facilities for adults, juvenile facilities, nursing facilities/skilled nursing facilities, and other institutional facilities) and noninstitutionalized populations (college/university student housing, military quarters, and other non-institutionalized facilities). The group quarters table will include state, county, county subdivision, voting district, tract, and block geographic levels for the total population in the group quarters count. Thus, the final design of the Prototype 2020 Census Redistricting Data File will be the same design as that used for the 2010 Census Redistricting Data File, with the addition of a group quarters table.

A schematic of the tables planned for the Prototype 2020 Census Redistricting File is available at the Census Bureau's FTP site at: https://www2.census.gov/programs-surveys/decennial/rdo/about/2020-census-program/Phase3/Phase3_prototype_schematic_final.pdf.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: International Trade Administration.

Title: Export Trade Certificate of Review.

OMB Control Number: 0625-0125.

Form Number(s): ITA-4093P.

Type of Request: Regular Submission.

Number of Respondents: 9.

Average Hours per Response: 32 hours (application); 2 hours (annual report).

Burden Hours: 440 hours.

Needs and Uses: The collection of information is necessary for both the Departments of Commerce and Justice to conduct an analysis, in order to determine whether the applicant and its members are eligible to receive the protection of an Export Trade Certificate of Review and whether the applicant's proposed export-related conduct meets the standards in Section 303(a) of the Act. The collection of information constitutes the essential basis of the statutory determinations to be made by the Secretary of Commerce and the Attorney General.

Affected Public: Business or other for profit organizations; not-for-profit institutions, and state, local or tribal government.

Frequency: Submission of an application form is required each time an entity of the affected public applies for a new or amended Export Trade Certificate of Review. Completion of an annual report is required one time per year from existing Certificate holders.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration.

Title: Survey of International Air Travelers (SIAT).

OMB Control Number: 0625-0227.

Form Number(s): None.

Type of Request: Regular submission (extension and revision of a currently approved information collection).

Number of Respondents: 300,000.

Average Hours per Response: 15 minutes.

Burden Hours: 75,000.

Needs and Uses: The Survey of International Air Travelers (SIAT) program, administered by the National Travel and Tourism Office (NTTO) of the International Trade Administration provides source data required to: (1) Estimate international travel and passenger fare exports, imports and the trade balance for the United States, (2) comply with the U.S. Travel Promotion Act of 2009 (Pub. L. 111-145), collect, analyze and report information to the Corporation for Travel Promotion (CTP), and support the National Export Initiative (NEI-NEXT) to double U.S. exports, (3) comply with the 1945, 1961, 1981, and 1996 travel and tourism related acts to collect and publish comprehensive international travel and tourism statistics and other marketing information, and (4) support the continuation of the Travel & Tourism Satellite Accounts for the United States, which provide the only spending and employment figures for the industry. The SIAT program contains the core data that is analyzed and communicated by NTTO with other government agencies, associations and businesses that share the same objective of increasing U.S. international travel exports.

The SIAT assists NTTO in assessing the economic impact of international travel on state and local economies, providing visitation estimates, key market intelligence, and identifying traveler and trip characteristics. The U.S. Department of Commerce assists travel industry enterprises to increase international travel and passenger fare exports for the country as well as outbound travel on U.S. carriers. The Survey program provides the only

available estimates of nonresident visitation to the states and cities within the United States, as well as U.S. resident travel abroad.

The SIAT also assists NTTO in producing in-depth statistical reports, fact sheets and briefings on economic factors and policy issues affecting U.S. industries. With the SIAT statistical data not replicable by private sector trade associations or by private firms, Federal agencies, Congress and international organizations rely on these statistic-based tools, as do American businesses, state and local governments, and news organizations.

Affected Public: Individuals or households: International travelers departing the United States 18 years or older which includes U.S. and non-U.S. residents for all countries except Canada.

Frequency: Monthly.

Respondent's Obligation: Voluntary.

SUPPLEMENTARY INFORMATION:

I. Abstract

Presidential Proclamations 9705 Adjusting Imports of Steel Mill Articles Into the United States and 9704 Adjusting Imports of Aluminum Into the United States

On March 8, 2018, the President issued Proclamations 9704 and 9705 concurring with the findings of the two reports and determining that adjusting

imports through the imposition of duties on steel and aluminum is necessary so that imports of steel and aluminum will no longer threaten to impair the national security. The Proclamations also authorized the Secretary of Commerce, in consultation with the Secretary of Defense, the Secretary of the Treasury, the Secretary of State, the United States Trade Representative, the Assistant to the President for Economic Policy, the Assistant to the President for National Security Affairs, and other senior executive branch officials as appropriate, to grant exclusions from the duties for domestic parties affected by the duties. This could take place if the Secretary determines the steel or aluminum for which the exclusion is requested is not produced in the United States in a sufficient and reasonably available amount or of a satisfactory quality or should be excluded based upon specific national security considerations. The President directed the Secretary to promulgate regulations as may be necessary to implement an exclusion process. The purpose of this information collection is to allow for submission of objections requests from the remedies instituted in presidential proclamations adjusting imports of steel into the United States and adjusting imports of aluminum into the United States.
