

9. The degree to which the action may adversely affect an endangered or threatened species or its habitat that has been determined to be critical under the ESA.

10. Whether the action threatens a violation of Federal, State, or local law or requirements imposed for the protection of the environment.

The Service performed internal NEPA scoping for the wind project and identified the environmental issues requiring detailed analysis, as well as connected, similar, and cumulative actions. In this case, and after considering the above factors, the Service has determined that the proposed ITP action is of sufficient size and complexity to warrant the preparation of an EIS, is similar to previous permit actions taken by the Service's Pacific Region that likewise required the preparation of an EIS, and may have significant effects on the human environment. On that basis and in accordance with regulations at 40 CFR 1501.4, 1507.3, and 1508.27, the Service believes preparation of an EIS is warranted to analyze the project-specific and cumulative environmental impacts associated with this proposed ITP action.

Therefore, before deciding whether to issue an ITP, we will prepare a DEIS, and later, an FEIS, to analyze the environmental impacts associated with the Service's ITP decision on the human environment. We do not intend to prepare an environmental assessment for the proposed action.

The DEIS will include a reasonable range of alternatives. Such alternatives may include, but are not limited to, variations in wind turbine curtailment by individual wind turbine and season, variations in covered species mitigation strategies, variations in implementation and effectiveness monitoring, or a combination of these factors. Additionally, a No Action Alternative will be included. Under the No Action Alternative, the Service would not issue an ITP, and Skookumchuck Wind Energy Project, LLC, would be obligated to avoid take of the covered species, or risk violation of Federal law.

The DEIS will identify and describe direct, indirect, and cumulative impacts on elements of the human environment that could occur with the implementation of the proposed action and alternatives. The Service will also identify measures, consistent with NEPA and other relevant considerations of national policy, to avoid or minimize any significant effects of the proposed action on the quality of the human environment. The Service will publish a notice of availability in the **Federal**

Register and a request for comment on the draft EIS and the Skookumchuck Wind Energy Project, LLC, draft HCP.

Request for Information

We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any other interested party on this notice. We will consider these comments in developing the DEIS. We seek specific comments on:

1. Biological information and relevant data concerning the covered species and other wildlife;

2. Information on marbled murrelet collisions with stationary and moving objects in the terrestrial environment;

3. Information on bald eagle, golden eagle, and marbled murrelet collisions with wind turbines, particularly in a forested environment;

4. Potential direct, indirect, and cumulative impacts that implementation of the proposed wind project and mitigation/minimization measures could have on the covered species; and other endangered or threatened species, and their associated ecological communities or habitats; and other aspects of the human environment;

5. Whether there are connected, similar, or reasonably foreseeable cumulative actions;

6. Other possible reasonable alternatives to the proposed permit action that the Service should consider, including additional or alternative avoidance, minimization, and mitigation measures;

7. Other current or planned activities in the vicinity of the wind project area and their possible impacts on the marbled murrelet, bald eagle, and golden eagle; and

8. Other information relevant to the proposed wind project and impacts to the human environment.

Public Availability of Comments

You may submit your comments and materials by one of the methods listed in **ADDRESSES**. Before including your address, phone number, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—might be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials we receive, as well as supporting documentation we use in preparing the DEIS, will be

available for public inspection by appointment, during normal business hours, at the Washington Fish and Wildlife Office (see **FOR FURTHER INFORMATION CONTACT**).

Scoping Meeting

See **DATES** for the dates, times, and locations of the public scoping meetings. The primary purpose of the meetings and the public comment period is to provide the public with a general understanding of the background of the proposed action and to solicit written comments and information on the scope of issues and alternatives we should consider when preparing the DEIS. Written comments will be accepted at the meetings. No opportunity for oral comments will be provided. Comments may also be submitted by the methods listed in **ADDRESSES**.

Reasonable Accommodations

Persons needing reasonable accommodations in order to attend and participate in the public scoping meetings should contact the Service's Washington Fish and Wildlife Office, using one of the methods listed in **ADDRESSES** as soon as possible. In order to allow sufficient time to process requests, please make contact no later than one week before the public meetings. Information regarding this proposed action is available in alternative formats upon request.

Authority

We provide this notice in accordance with the requirements of section 10 of the ESA (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1501.7, 40 CFR 1506.5, 1506.6, and 1508.22).

Theresa Rabot,

Deputy Regional Director, Pacific Region, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS–WASO–NRNHL–DTS#–25422;PPWOCRADIO, PCU00RP14.R50000]

National Register of Historic Places; Notification of Pending Nominations and Related Actions

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The National Park Service is soliciting comments on the significance of properties nominated before April 14,

2018, for listing or related actions in the National Register of Historic Places.

DATES: Comments should be submitted by May 18, 2018.

ADDRESSES: Comments may be sent via U.S. Postal Service and all other carriers to the National Register of Historic Places, National Park Service, 1849 C St. NW, MS 7228, Washington, DC 20240.

SUPPLEMENTARY INFORMATION: The properties listed in this notice are being considered for listing or related actions in the National Register of Historic Places. Nominations for their consideration were received by the National Park Service before April 14, 2018. Pursuant to Section 60.13 of 36 CFR part 60, written comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Nominations submitted by State Historic Preservation Officers:

ARKANSAS

Benton County

Carpenter Building, 136 E Main, Gentry, SG100002447

Calhoun County

Shumaker Naval Ammunition Depot (NAD) 500-Man Barracks, S side of AR 274 between Spellman Rd. & AR 203, East Camden, SG100002448
Shumaker Naval Ammunition Depot (NAD) Administration Building, 6415 Spellman Rd., East Camden, SG100002449
