Agency Information Collection Activity; Notice of Request for Approval To Collect New Information: Oil and Gas Industry Safety Data Program

AGENCY: Office of the Assistant Secretary for Research and Technology (OST-R), Bureau of Transportation Statistics (BTS), U.S. Department of Transportation.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the requirements of section 3506(c)(2)(A) of Title 44 of the U.S. Code (Pub. L. 104-13, the Paperwork Reduction Act of 1995), this notice announces the intention of BTS to request the Office of Management and Budget (OMB) to approve a new data collection: Oil and Gas Industry Safety Data.

In August 2013, the Bureau of Safety and Environmental Enforcement (BSEE) and BTS signed an Interagency Agreement to develop and implement SafeOCS, a voluntary program for confidential reporting of ‘near misses’ occurring on the Outer Continental Shelf (OCS). The Oil and Gas Industry Safety Data (ISD) program, is a component of BTS’s SafeOCS data sharing framework, that provides a trusted, proactive means for the oil and gas industry to report sensitive and proprietary safety information, and to identify early warnings of safety problems and potential safety issues by uncovering hidden, at-risk conditions not previously exposed from analysis of reportable accidents and incidents. Companies participating in the ISD are voluntarily submitting safety data. There is no regulatory requirement to submit such data.

The ISD identifies a broader range of data categories to ensure safe performance and appropriate risk management, which adds a learning component to assist the oil and gas industry in achieving improved safety performance. BTS will be the repository for the data, and will analyze and aggregate information proffered under this program, and publish reports providing identification of potential causal factors and trends or patterns before safety is compromised, and affording continuous improvement opportunities by focusing on repairing impediments to safety.

DATES: Written comments should be submitted by July 6, 2018.
