

generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

### III. Data

*Title:* Extension of the Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

*OMB Number:* 2700–0153

*Type of Review:* Extension of approval for a collection of information.

*Affected Public:* Individuals and Households, Businesses and Organizations, State, Local, or Tribal Government.

*Average Expected Annual Number of Activities:* 60.

*Average Number of Respondents per Activity:* 300.

*Annual Responses:* 18,000.

*Frequency of Responses:* Once per request.

*Average minutes per Response:* 5.

*Burden Hours:* 1,500.

### IV. Request for Comments

*Comments are invited on:* (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection.

They will also become a matter of public record.

**Deborah F. Bloxon,**

*NASA Federal Liaison Officer.*

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

**[Notice: (18–043)]**

### Notice of Information Collection

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

**DATES:** All comments should be submitted within 30 calendar days from the date of this publication.

**ADDRESSES:** All comments should be addressed to Lori Parker, National Aeronautics and Space Administration, 300 E Street SW, Washington, DC 20546–0001.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Lori Parker, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, (202) 358–1351.

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

Supersonic flight over land is currently restricted in the U.S. and many countries because sonic boom noise disturbs people on the ground and can potentially damage private property. NASA is researching the public acceptability of quiet commercial supersonic flight. As sufficient research is assembled, there is potential for a change in federal and international regulations.

The 2018 Quiet Supersonic Flight Community Response Test will correlate human annoyance response with low level supersonic exposure in a community setting. The supersonic exposure will be generated with an F–18 research aircraft performing a specialized maneuver. This effort is designed to evaluate remote aircraft basing and operations, community engagement, sonic boom measurements,

and community annoyance surveys. The effort will improve research methods for future community-scale response testing using a purpose-built, low boom flight demonstration aircraft (LBFD).

NASA supported a prior risk reduction field test to evaluate data collection methods for low boom community response at Edwards Air Force Base (EAFB) in November 2011. The annoyance response findings from the study are not readily generalizable to a larger population, as the residents at EAFB are accustomed to hearing full level sonic booms on a routine basis.

### II. Methods of Collection

Web-Based/Electronic.

### III. Data

*Title:* 2018 Quiet Supersonic Flight Community Response Test.

*OMB Number:* 2700–xxxx.

*Type of review:* New Clearance.

*Affected Public:* Individuals and Households, Businesses and Organizations, State, Local, or Tribal Government.

*Average Expected Annual Number of Activities:* Four questionnaires administered with varying frequency over 10 days.

*Average Number of Respondents per Activity:* 500 respondents (maximum).

*Annual Responses:* 112 responses (maximum) per respondent.

*Frequency of Responses:* 10 responses (maximum) per day.

*Average minutes per Response:* Typical response time is 2 minutes.

*Burden Hours:* Not to exceed 2,000 hours.

### IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection.

They will also become a matter of public record.

## NUCLEAR REGULATORY COMMISSION

[NRC-2018-0091]

### Relocation of Regulatory Issue Summary Notices in the Federal Register

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Categorization of notice.

**SUMMARY:** The Nuclear Regulatory Commission (NRC) is notifying the public that documents regarding draft and final Regulatory Issue Summaries that historically have published in the “Notices” section of the **Federal Register** will now be published in the “Proposed Rules” and “Rules and Regulations” sections of the **Federal Register**. The Office of the Federal Register (OFR) recently informed the NRC that under OFR guidelines, these documents fall into the “Proposed Rules” and “Rules and Regulations” categories and requested that NRC reclassify these notices.

**ADDRESSES:** Please refer to Docket ID NRC-2018-0091 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0091. Address questions about NRC dockets to Jennifer Borges; telephone: 301-287-9127; email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov).

- *NRC’s PDR:* You may examine and purchase copies of public documents at the NRC’s PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

#### FOR FURTHER INFORMATION CONTACT:

Anthony de Jesus, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-287-9219, email: [Anthony.deJesus@nrc.gov](mailto:Anthony.deJesus@nrc.gov).

**SUPPLEMENTARY INFORMATION:** The NRC issues Regulatory Issue Summaries to communicate with stakeholders on a broad range of matters. This may include clarification of existing requirements and regulations. This may also include communicating and clarifying the NRC’s technical or policy positions on regulatory matters that have not been communicated to, or are not broadly understood by, the nuclear industry. Documents regarding Regulatory Issue Summaries historically have been published in the “Notices” section of the **Federal Register**.

Under the Federal Register Act (44 U.S.C. chapter 15), the Administrative Committee of the Federal Register issues regulations regarding publishing documents in the **Federal Register** (see chapter I of title 1 of the *Code of Federal Regulations* (1 CFR)). Based on these governing regulations, the OFR classifies agency documents published in the **Federal Register** in one of three categories: Rules and regulations, proposed rules, and notices. The regulation establishing document types is available in 1 CFR 5.9.

In accordance with the OFR’s request that the NRC reclassify Regulatory Issue Summaries, these documents will be published in the “Proposed Rules” or “Rules and Regulations” section of the **Federal Register**. This change is effective immediately.

Dated at Rockville, Maryland, this 2nd day of May 2018.

For the Nuclear Regulatory Commission.

**Cindy K. Bladey,**

*Federal Register Liaison Officer, Division of Rulemaking, Office of Nuclear Material Safety and Safeguards.*

## NUCLEAR REGULATORY COMMISSION

[NRC-2018-0085]

### Biweekly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Biweekly notice.

**SUMMARY:** Pursuant to Section 189a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued, from April 10, 2018, to April 23, 2018. The last biweekly notice was published on April 24, 2018.

**DATES:** Comments must be filed by June 7, 2018. A request for a hearing must be filed by July 9, 2018.

**ADDRESSES:** You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

- *Federal Rulemaking Website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0085. Address questions about NRC dockets to Jennifer Borges; telephone: 301-287-9127; email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* May Ma, Office of Administration, Mail Stop: TWFN-7-A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.
