Background

On February 2, 2018, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Sierrita Compressor Expansion Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the NOI, the Commission received comments from Pima County (Office of Sustainability & Conservation, the Regional Flood Control District, the Development Services Department, and the Regional Wastewater Reclamation Department); the Altar Valley Conservation Alliance; and the U.S. Environmental Protection Agency. The primary issues raised by the commentors regarded purpose and need, alternatives, pipeline safety, water resources, air quality, biological resources and invasive species, hazardous materials, cultural resources, cumulative impacts, restoration and post-construction monitoring, outdoor lighting, and impacts on existing utility lines.
