

Fishery. Council staff will brief the public on the document's two actions. The first action considers modifying the regulations to allow three new approved sea turtle release gears as well as clarify a minimum size limit for a current gear requirement. This action applies to commercial and charter/headboat vessels with federal Gulf reef fish permits.

The second action would modify the framework procedure to allow new gears to be approved for use without a full amendment to the fishery management plan in the future. Staff will then open the meeting for questions and public comments.
